**ABERDEEN EMERGING MARKETS EQUITY INCOME FUND, INC. ANNOUNCES
PAYMENT OF DISTRIBUTION**

(Philadelphia, January 10, 2019) - [Aberdeen Emerging Markets Equity Income Fund, Inc. \(the “Fund”\)](#) ([NYSE American: AEF](#)) (the “Fund”), a closed-end equity fund, today announced that it paid on January 10, 2019, a distribution of \$0.19421 per share to all shareholders of record as of December 31, 2018 (ex-dividend date December 28, 2018). This represents the quarterly distribution declared on December 14, 2018 of \$0.04 and a special distribution declared on December 21, 2018 of \$0.15421.

As recently announced, the Board has approved a policy to pay distributions quarterly, comprised of net investment income generated by dividends paid from the Fund’s underlying securities. Based on estimated dividend income over the period, net of taxes and expenses, the Fund will pay a quarterly distribution at an annualized rate of 2.0% for the next 12-months ending December 31, 2019. This policy will be subject to ongoing review by the Board.

Under U.S. tax rules applicable to the Fund, the amount and character of distributable income for each fiscal year can be finally determined only as of the end of the Fund’s fiscal year. However, under Section 19 of the Investment Company Act of 1940, as amended (the “1940 Act”) and related Rules, the Fund may be required to indicate to shareholders the source of certain distributions to shareholders.

The following table sets forth the estimated amounts of the sources of the distribution for purposes of Section 19 of the 1940 Act and the Rules adopted thereunder. The table has been computed based on generally accepted accounting principles. The table includes estimated amounts and percentages for this distribution and for the cumulative distributions paid relating to fiscal year to date (01/01/2018 – 12/31/2018), from the following sources: net investment income; net realized short-term capital gains; net realized long-term capital gains; and return of capital. The estimated composition of the distributions may vary from quarter to quarter because the estimated composition may be impacted by future income, expenses and realized gains and losses on securities and currencies.

As of December 31, 2018, after giving effect to this payment, the Fund estimates it has a net deficit of \$56,692,000. A net deficit results when the Fund has net unrealized losses that are in excess of any net realized gains that have not yet been distributed.

The amounts and sources of distributions reported in this notice are only estimates and are not being provided for tax reporting purposes. The final determination of the source of all distributions in 2018 will be made after year-end. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of the fiscal year and may be subject to change based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.
