

Aberdeen Latin American Income Fund Limited

Annual Report
31 August 2016

Ambev

An employee operates a forklift to move pallets of Budweiser brand beer at the Ambev SA bottling facility in Lages, Brazil. In Aberdeen's view, Ambev, Latin America's largest brewer, is well managed, with considerable brand equity and market-leading positions across South America, the Caribbean and Canada.

The cover image is of The Museum of Tomorrow (Museu do Amanha), designed by Spanish architect Santiago Calatrava, in Rio de Janeiro, Brazil.

THIS DOCUMENT IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION. If you are in any doubt about the action you should take, you are recommended to seek your own independent financial advice from your stockbroker, bank manager, solicitor, accountant or other financial adviser authorised under the Financial Services and Markets Act 2000 (as amended by the Financial Services Act 2012) if you are in the United Kingdom or, if not, from another appropriately authorised financial adviser.

If you have sold or otherwise transferred all your Ordinary shares in Aberdeen Latin American Income Fund Limited, please forward this document, together with the accompanying documents immediately to the purchaser or transferee, or to the stockbroker, bank or agent through whom the sale or transfer was effected for transmission to the purchaser or transferee.

Financial Highlights

Aberdeen Latin American Income Fund Limited (the "Company") is a Jersey-incorporated, closed-ended investment company and its shares are traded on the London Stock Exchange ("LSE"). The Company is a member of the Association of Investment Companies.

The Company is governed by a board of directors, the majority of whom are independent, and has no employees.

Like other investment companies, it outsources its investment management and administration to an investment management group, the Aberdeen Asset Management group of companies, and other third party providers. The Company does not have a fixed life.

Investment Objective

The Company aims to provide private and institutional investors with exposure to the above average long-term capital growth prospects of Latin America combined with an attractive yield.

Gearing

The Board considers that returns to Ordinary Shareholders can be enhanced by the judicious use of borrowing. The Board is responsible for the level of gearing in the Company and reviews the position on a regular basis. Pursuant to the level of gearing set by the Board, the Company may borrow up to an amount equal to 20% of its net assets. The Company will not have any fixed, long-term borrowings.

Risk Diversification

The Company has a diversified portfolio consisting primarily of equities, equity-related and fixed income investments, with at least 25% of its gross assets invested in equity and equity-related investments and at least 25% of its gross assets invested in fixed income investments. The Company's investment policy is flexible, enabling it to invest in all types

of securities, including (but not limited to) equities, preference shares, debt, convertible securities, warrants, depositary receipts and other equity-related securities.

Management

The Company is managed by Aberdeen Private Wealth Management Limited ("APWML"), which is registered with the Jersey Financial Services Commission ("JFSC") for the conduct of fund services business. The investment management of the Company has been delegated by APWML to Aberdeen Asset Managers Limited ("AAM"). AAM is based in London and is also a wholly-owned subsidiary of Aberdeen Asset Management PLC (the "Aberdeen Group"), a publicly-quoted company on the LSE.

References throughout this document to Aberdeen refer to both APWML and AAM and their responsibilities as Manager and Investment Manager respectively to the Company.

Chairman's Statement

Richard Prosser
Chairman

Overview

Latin American bond and equity prices rallied over the 12 months, largely with the help of a sharp second-half rebound. For some markets, positive political developments spurred optimism. For most others, a recovery in oil and metal commodity prices and continued monetary easing from global central banks proved supportive. Inflation has peaked and started to decline in the region, allowing central banks to end their rate hiking cycles. Meanwhile, regional currencies gained against sterling following the unexpected results of the UK's referendum on European Union membership.

Among the markets benefiting from a more positive political backdrop was Brazil, the Company's largest country exposure. Brazil's stock and bond markets were the region's standout performers, lifted by hopes that a new leader could rejuvenate the ailing economy. The new president Michel Temer, who took over from Dilma Rousseff, has appointed an economic team that consists of investor favourites, such as former central bank president Henrique Mierelles heading the finance ministry, and former central bank director Ilan Goldfajn governing the central bank. The team unveiled an ambitious programme of reforms aimed at strengthening the country's public finances. Consumer confidence climbed as economic activity appeared to improve, but Temer's economic team cautioned that a sustained recovery will depend on the government's ability to implement meaningful structural reforms.

Other countries that were lifted by a better political climate included Argentina. The pro-business Mauricio Macri won the presidential election, pledging to relax exchange controls and renegotiate with foreign creditors. Notably, its return to the global bond market after a 15-year hiatus attracted intense investor interest. In addition, since overhauling its statistical agency, the country released its first set of credible economic data in June. In Peru, market-friendly candidate Pedro Pablo Kuczynski was elected as president, with a mandate to boost infrastructure investments. The country's stockmarket also

gained from a snapback in commodity prices, in particular soya bean. A sharp fall in inflation saw the bond market rally.

The Mexican economy was relatively resilient despite the challenging global backdrop, supported by domestic consumption. Meanwhile, the central bank tightened its monetary policy by raising rates to curb inflation and to shore up the Peso. However, the currency continued to underperform its regional peers, with concerns surrounding the outcome of the US presidential election increasingly weighing on the Peso. The government also cautiously cut its 2016 growth forecast on worries over slowing exports and plans to trim budget spending to strengthen the country's finances.

Similarly, the Chilean central bank downgraded its outlook for the year, warning that business sentiment could remain weak and unemployment may creep higher. On the commodity front, the country benefited as a net oil importer. While copper prices ended the year lower, losses were pared by a rally towards the period-end amid speculation that China, the world's biggest importer, may do more to stimulate growth. Domestic politics continued to focus on president Michelle Bachelet's reform efforts, which have so far yielded mixed results.

Results and Dividends

I am pleased to report that your Company's NAV total return was 46.2% for the year ended 31 August 2016, ahead of the 38.8% rise in our composite benchmark's return. On a total return basis the Ordinary share price rose by 36.7% to 66.63p reflecting a widening in the level of discount to NAV per share which moved from 4.8% to 11.8% at the year end.

The broad-based weakening of Sterling contributed positively to performance over the last quarter of the year. The earnings per share for the year ended 31 August 2016 were 4.6p (2015: 3.85p). The Company has declared four interim dividends of 0.875p per Ordinary share in respect of the year bringing the total level of dividends to 3.5p

(2015: 4.25p). Allowing for the payment of the four dividends £720,000 has been transferred to the carried forward revenue reserve. The Board will continue to keep the level of revenue from the portfolio under careful review and intends to continue to pay an annual dividend of at least 3.5p per Ordinary share for the financial year ending 31 August 2017. Dividends remain subject to investee company performance, the level of income from investments and currency movements.

As part of the dividend rebasing exercise last year, Aberdeen agreed to waive its company secretarial and administration fee of £112,000 per annum, for the year ended 31 August 2015. The waiver has remained in place for 2016. However, in light of the signs of strengthening currencies and improved confidence in the region, the Board has agreed to reinstate the company secretarial fee at the level of £114,000 for the year ending 31 August 2017.

Portfolio

During the year the portfolio allocation between equities and bonds remained constant at 39% equities and 61% bonds as the Investment Manager continued to seek to exploit market opportunities. The Manager currently expects to maintain this allocation in the near term although the allocation to equities is likely to increase over time as economic conditions improve and the Company's revenue streams stabilise further.

Share Capital Management

During the year the Company purchased for treasury 870,000 Ordinary shares at a discount to the NAV per share. Market volatility has, at times, continued to affect our ability to have a meaningful impact on the discount through the purchase of the Ordinary shares in the market and over this period the discount to NAV has widened from 4.8% to 11.8%. It remains the Board's intention, in more normal market conditions, to try to maintain a discount of around 5% over the longer term. Subsequent to the year end a further 145,000 Ordinary shares have been purchased for treasury. The Board will continue to make selective use of share buybacks, subject to prevailing market conditions and where to do so would be in Shareholders' interests. At the time of writing the Ordinary shares were trading at a discount of 12.3% following a further healthy increase in the NAV.

On 31 December 2015 the Company's remaining Subscription Shares expired out of the money and following the completion of the formal process laid out in the Articles, involving the appointment of an independent trustee, the Subscription Shares were formally cancelled on 15 January 2016.

Gearing

During the year the level of drawings under the Company's £10 million facility with Scotiabank Europe PLC was reduced to £7.5 million. Subsequent to the period end the loan was further reduced to £6.5 million. The Board will continue to monitor the level of gearing under recommendation from the Investment Manager and in the light of market conditions.

Annual General Meeting

The AGM will be held at 10.00 a.m. on 8 December 2016 at the Company's registered office, Sir Walter Raleigh House, 48 – 50 Esplanade, St Helier, Jersey JE2 3QB and I look forward to meeting Shareholders on the day.

We are proposing to renew the Company's authority to buy back Ordinary shares subject to the United Kingdom Listing Authority's Listing Rules and Jersey law and any purchases will be at the absolute discretion of the Directors. We are also seeking to renew the authority to issue new Ordinary shares equivalent to up to 10% of the Company's existing Ordinary share capital at the AGM. Ordinary shares will only ever be issued at a premium to NAV per Ordinary share and will therefore be accretive and not disadvantageous to Ordinary Shareholders.

Outlook

Latin American markets posted an impressive performance over the 12 months compared to the broader emerging markets. It is, however, premature to declare an all-clear looking ahead. Volatility is likely to persist with your Manager urging caution ahead of several key events that could swing sentiment. Among them are the US Federal Reserve's next rate hike and the result of the US presidential elections in November, which could have a significant impact on Mexico because of the countries' economic linkages.

On the political front, leadership changes in Brazil, Argentina and Peru that promised business-friendly reforms should continue to bode well for their respective markets. While investor confidence has improved, these countries cannot afford to be complacent and must be prepared to stay the course if they want to keep the momentum going. Meanwhile, the participation of Chile, Mexico and Peru in the Trans-Pacific Partnership is also a positive development over the longer term, as trade barriers are lowered.

Against this backdrop, your Manager is cautiously optimistic over the region's outlook. Most importantly, the investment case in the region remains intact. Demographics, especially a burgeoning middle class, continue to serve as the compelling growth engine that

Chairman's Statement continued

drives the possibilities for businesses in Latin America. Meanwhile, currency depreciation has helped to absorb the commodities-driven terms of trade shock, and policymakers show a timely shift in focus towards public and private investments in non-commodity sectors. While uncertainty lies ahead, the Board is confident in your Manager's disciplined investment approach, which is based on a rigorous due diligence process and a strong emphasis on corporate engagement.

Richard Prosser

Chairman

18 October 2016

Strategic Report

The Company is a Jersey-incorporated, closed-ended investment company and its shares are traded on the London Stock Exchange ("LSE"). It is registered with limited liability in Jersey as a closed-ended investment company under the Companies (Jersey) Law 1991 with registered number 106012. In addition, the Company is constituted and regulated as a collective investment fund under the Collective Investments Funds (Jersey) Law 1988.

2010

The Company was launched on
16 August 2010

The Octavio Frias De Oliveira bridge is a reinforced concrete, cable-stayed bridge situated in the heart of Sao Paulo, Brazil. It provides an important road connection in the city and aims to reduce traffic congestion.

Overview of Strategy

Business Model

The Company aims to provide private and institutional investors with exposure to the above average long-term capital growth prospects of Latin America combined with an attractive yield.

The business of the Company is that of an investment company and the Directors do not envisage any change in this activity in the foreseeable future.

Investment Policy and Approach

The Company invests in:

- companies listed on stock exchanges in the Latin American region;
- Latin American securities (such as ADRs and GDRs) listed on other international stock exchanges;
- companies listed on other international exchanges that derive significant revenues or profits from the Latin American region; and
- debt issued by governments and companies in the Latin American region.

The Company has a diversified portfolio consisting primarily of equities, equity-related and fixed income investments, with at least 25% of its gross assets invested in equity and equity-related investments and at least 25% of its gross assets invested in fixed income investments. The Company's investment policy is flexible, enabling it to invest in all types of securities, including (but not limited to) equities, preference shares, debt, convertible securities, warrants, depositary receipts and other equity-related securities.

Whilst the Board has provided the Investment Manager with broad investment guidelines in order to ensure a spread of risk, the Company's portfolio is not managed by reference to any benchmark and, therefore, the composition of its portfolio is not restricted by minimum or maximum country, market capitalisation or sector weightings.

The Company may invest, where appropriate, in open-ended collective investment schemes and closed-ended funds that invest in the Latin American region.

Derivative investments may be used for efficient portfolio management and hedging and may also be used in order to achieve the investment objective and to enhance portfolio performance. The Company may purchase and sell derivative investments such as exchange-listed and over-the-counter put and call options on currencies, securities, fixed income, currency and interest rate indices and other financial instruments, purchase and sell financial futures contracts and options thereon and enter into various interest rate and currency transactions such as swaps, caps, floors or collars or

credit transactions and credit derivative instruments. The Company may also purchase derivative instruments that combine features of these instruments. Aberdeen employs a risk management process to oversee and manage the Company's exposure to derivatives. Aberdeen may use one or more separate counterparties to undertake derivative transactions on behalf of the Company, and may be required to pledge collateral in order to secure the Company's obligations under such contracts. Aberdeen will assess on a continuing basis the creditworthiness of counterparties as part of its risk management process.

The Company may underwrite or sub-underwrite any issue or offer for sale of investments.

The Board considers that returns to Ordinary Shareholders can be enhanced by the judicious use of borrowing. The Board is responsible for the level of gearing in the Company and reviews the position on a regular basis. Pursuant to the level of gearing set by the Board, the Company may borrow up to an amount equal to 20% of its net assets calculated at the time of drawing. The Company will not have any fixed, long-term borrowings.

The Company may also use derivative instruments for gearing purposes, in which case the investment restrictions will be calculated on the basis that the Company has acquired the securities to which the derivatives are providing exposure.

The Company will normally be fully invested. However, during periods in which economic conditions or other factors warrant, the Company may reduce its exposure to securities and increase its position in cash and money market instruments.

The Company invests and manages its assets, including its exposure to derivatives, with the objective of spreading risk in line with the Company's investment policy.

The Company may only make material changes to its investment policy (including the level of gearing set by the Board) with the approval of Ordinary Shareholders (in the form of an ordinary resolution).

Investment Restrictions

The minimum and maximum percentage limits set out under "Investment Policy and Approach" and "Investment Restrictions" will only be applied at the time of the relevant acquisition, trade or borrowing. No more than 15% of the Company's gross assets will be invested in any company.

The Company will not invest more than 10%, in aggregate, of the value of its gross assets in other investment companies admitted to the Official List of the Financial

Conduct Authority, provided that this restriction does not apply to investments in any such investment companies which themselves have stated investment policies to invest no more than 15% of their gross assets in other listed investment companies admitted to the Official List of the Financial Conduct Authority.

The Company may invest up to 25% of its gross assets in non-investment grade government debt issues (being debt issues rated BB+/Ba1 or lower).

The Company's aggregate gross exposure to derivative instruments will not exceed 50% of its gross assets.

The Company will not acquire securities that are unlisted or unquoted at the time of investment (with the exception of securities which are about to be listed or traded on a stock exchange). However, the Company may continue to hold securities that cease to be listed or quoted if Aberdeen considers this to be appropriate.

No underwriting or sub-underwriting commitment will be entered into if the aggregate of such investments would exceed 10% of the Company's net assets and no such

individual investment would exceed 5% of the Company's net assets.

The Board has adopted a policy that the value of the Company's borrowings or derivatives (but excluding collateral held in respect of any such derivatives) will not exceed 30% the Company's net assets.

Duration

The Company does not have a fixed life or continuation vote.

Benchmark

The Company measures its performance against a composite benchmark index weighted as to 60% MSCI EM Latin America 10/40 Index and 40% JP Morgan GBI-EM Global Diversified (Latin America Carve Out) (both in sterling terms) (the "Benchmark"). The Company does not seek to replicate the Benchmark index in constructing its portfolio and the portfolio is not managed by reference to any index. It is likely, therefore, that there will be periods when the Company's performance will be uncorrelated to any index or benchmark.

Key Performance Indicators (KPIs)

The Board uses a number of financial performance measures to assess the Company's success in achieving its objective and determine the progress of the Company in pursuing its investment policy. The main KPIs identified by the Board in relation to the Company which are considered at each Board meeting are as follows:

KPI	Description
Net Asset Value ("NAV") Total Return Performance versus Benchmark Index Total Return	The Board considers the Company's NAV total return figures versus the Benchmark to be the best indicator of performance over time and is therefore the main indicator of performance used by the Board. The figures for this year, three years and since inception are set out on page 12.
Share Price Discount/Premium to NAV per Ordinary Share	The discount/premium relative to the NAV per share represented by the share price is closely monitored by the Board. The objective is to avoid large fluctuations in the discount relative to similar investment companies investing in the region by the use of share buy backs subject to market conditions. A graph showing the share price premium/(discount) relative to the NAV is also shown on page 13.
Ordinary Share Price Total Return Performance	The Board also monitors the price at which the Company's shares trade relative to the Benchmark on a total return basis over time. A graph showing the total NAV return and the share price performance against the comparative index is shown on page 13.
Dividends per Ordinary Share	The Board's aim is to provide shareholders with an attractive yield. Dividends paid in 2015 and 2016 are set out on page 12.

Further commentary on the Company's performance is contained in the Chairman's Statement and Investment Manager's Review and further explanation of the terms is provided in the Glossary on page 75.

Overview of Strategy *continued*

Principal Risks and Uncertainties

There are a number of risks which, if realised, could have a material adverse effect on the Company and its financial condition, performance and prospects. The Board has identified the principal risks and uncertainties facing the Company at the current time in the table below together with a description of the mitigating actions taken by the Board. The principal risks associated with an investment in the Company's shares are published monthly on the Company's factsheet or they can be found in the pre-investment disclosure document published by the Manager, both of which are on the Company's website. The Board reviews the risks and uncertainties faced by the Company in the form of a risk matrix and heat map at its annual audit committee and a summary of the principal risks are set out below.

An explanation of other risks relating to the Company's investment activities, specifically market risk including interest rate risk, foreign currency risk and other price risk, liquidity risk, credit risk, gearing risk and a note of how these risks are managed, is contained in note 16 to the financial statements on pages 59 to 66.

Description

Mitigating Action

Investment strategy and objectives – the setting of an unattractive strategic proposition to the market and the failure to adapt to changes in investor demand may lead to the Company becoming unattractive to investors, a decreased demand for Ordinary shares and a widening discount at which the Ordinary shares trade relative to their NAV.

The Board keeps the level of discount at which the Company's Ordinary shares trade as well as the investment objective and policy under review and the Board is updated at each Board meeting on the make up of and any movements in the Shareholder register.

Investment portfolio, investment management – investing outside of the investment restrictions and guidelines set by the Board could result in poor performance and inability to meet the Company's objectives.

The Board sets, and monitors, its investment restrictions and guidelines, and receives regular reports which include performance reporting on the implementation of the investment policy, the investment process and application of the guidelines.

Financial obligations – the ability of the Company to meet its financial obligations, or increasing the level of gearing, could result in the Company becoming over-g geared and therefore unable to take advantage of potential opportunities and result in a loss of value of the Company's Shares.

The Board sets a gearing limit and receives regular updates on the actual gearing levels the Company has reached from the Investment Manager together with the assets and liabilities of the Company and reviews these at each Board meeting.

Financial and Regulatory – the financial risks associated with the portfolio could result in losses to the Company. In addition, failure to comply with relevant regulation (including the Companies (Jersey) Law, the Financial Services and Markets Act, the Alternative Investment Fund Managers Directive, Accounting Standards and the listing rules, disclosure and prospectus rules) may have a negative impact on the Company.

The financial risks associated with the Company include market risk, liquidity risk and credit risk, all of which are managed by the Investment Manager. Further details of the steps taken to mitigate the financial risks associated with the portfolio are set out in note 16 to the financial statements. The Board relies upon Aberdeen to ensure the Company's compliance with applicable regulations and from time to time employs external advisers to advise on specific concerns.

Operational – the Company is dependent on third parties for the provision of all systems and services (in particular, those of AAM) and any control failures and gaps in these systems and services could result in a loss or damage to the Company.

The Board receives reports from the Manager on internal controls and risk management at each Board meeting and receives assurances from its significant service providers. Further details of the internal controls which are in place are set out in the Directors' Report on pages 28 and 29.

Income and dividend risk - there is a risk that the portfolio could fail to generate sufficient income to meet the level of the annual dividend drawing upon, rather than replenishing, its revenue and/or capital reserves.

The Board monitors this risk through the review of income forecasts, provided by the Manager, at each Board meeting.

Viability Statement

The Company does not have a formal fixed period strategic plan but the Board formally considers risks and strategy at least annually. The Board considers the Company, with no fixed life, to be a long term investment vehicle, but for the purposes of this viability statement has decided that a period of three years is an appropriate period over which to report. The Board considers that this period reflects a balance between looking out over a long term horizon and the inherent uncertainties of looking out further than three years.

In assessing the viability of the Company over the review period the Directors have focussed upon the following factors:

- The principal risks detailed in the Strategic Report on page 10;
- The ongoing relevance of the Company's investment objective in the current environment;
- The demand for the Company's Shares evidenced by the historical level of premium and or discount;
- The level of income generated by the Company;
- The liquidity of the Company's portfolio; and,
- The flexibility of the Company's multi currency loan facility which matures in August 2017 including the financial covenants attaching to the loans.

Accordingly, taking into account the Company's current position, the fact that the Company's investments are mostly liquid and the potential impact of its principal risks and uncertainties, the Directors have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due for a period of three years from the date of this Report. In making this assessment, the Board has considered that matters such as significant economic or stock market volatility, a substantial reduction in the liquidity of the portfolio, or changes in investor sentiment could have an impact on its assessment of the Company's prospects and viability in the future.

Promoting the Company

The Board recognises the importance of promoting the Company to prospective investors both for improving liquidity and enhancing the value and rating of the Company's shares. The Board believes an effective way to achieve this is through subscription to and participation in the promotional programme run by the Aberdeen Group on behalf of a number of investment companies under its management. The Company's financial contribution to the programme is matched by the Aberdeen Group. The Aberdeen Group Head of Brand reports quarterly to the Board giving analysis of the promotional activities as well as updates on the shareholder register and any changes in the make up of that register.

The purpose of the programme is both to communicate effectively with existing shareholders and to gain new shareholders with the aim of improving liquidity and enhancing the value and rating of the Company's shares. Communicating the long-term attractions of your Company is key and therefore the Company also supports the Aberdeen Group's investor relations programme which involves regional roadshows, promotional and public relations campaigns.

Board Diversity

The Board recognises the importance of having a range of skilled, experienced individuals with the right knowledge represented on the Board in order to allow the Board to fulfill its obligations. The Board also recognises the benefits, and is supportive, of the principle of diversity in its recruitment of new board members. At 31 August 2016, there were four male Directors on the Board.

Environmental, Social and Human Rights Issues

The Company has no employees as it is managed by APWML and ordinarily all activities are contracted out to third party service providers. There are therefore no disclosures to be made in respect of employees. The Company's socially responsible investment policy is outlined on page 31.

Global Greenhouse Gas Emissions

The Company has no greenhouse gas emissions to report from the operations of its business, nor does it have responsibility for any other emissions producing sources.

Future

Many of the non-performance related trends likely to affect the Company in the future are common across all closed ended investment companies, such as the attractiveness of investment companies as investment vehicles, the impact of regulatory changes (including MiFID II and Packaged Retail Investment and Insurance Products) and the recent changes to the pensions and savings market in the UK. These factors need to be viewed alongside the outlook for the Company, both generally and specifically, in relation to the portfolio. The Board's view on the general outlook for the Company can be found in my Chairman's Statement on pages 5 and 6 whilst the Investment Manager's views on the outlook for the portfolio are included on page 15.

Investment Manager's Review

Performance Commentary

Latin American equities delivered impressive returns over the year under review, outpacing broader emerging markets. Currency gains accounted for a sizeable part of overall returns, as sterling was battered by the UK's vote to leave the European Union, flattering most Latin American currencies.

Initially, Latin American markets endured a shaky start. The US Federal Reserve raised interest rates in December, triggering knee-jerk flows out of emerging markets. China's stuttering economy and a steep sell-off in mainland stocks added to jitters, along with a slump in commodities, particularly the oil price, which fell to below US\$30 a barrel at one point. Markets sank to a trough in January before staging a stunning comeback, driven by encouraging political developments, particularly in Brazil, healthier risk appetite and some recovery in commodity prices.

Towards the period-end, gains were pared by renewed weakness in oil prices ahead of an OPEC summit and the prospect of a US rate hike. Against this backdrop, the equity portfolio rose by 53.28% (gross), beating the benchmark index's total return of 41.24%.

Latin American bond markets also delivered notable returns over the year under review, outpacing the broader emerging markets. Stabilization in commodities prices led to a recovery in currency valuations, which combined with weaker growth and tight monetary policies reduced inflationary pressures across the region. Consumer price growth peaked in the first quarter of 2016, and favorable base effects contributed to the subsequent deceleration in inflation. The bond portfolio returned 36.96% (gross) over the year, outperforming the benchmark performance of 34.79%.

Mexico contributed the most to performance. Our equity underweight position was positive, as the stockmarket rose by less than its peers, dampened by growth concerns. The economy shrank for the first time in three years, amid lacklustre industrial activity and a weak peso. Not holding some laggards, such as America Movil, which suffered regulatory and competitive pressures, also proved beneficial. Among our holdings, Kimberly Clark de Mexico proved resilient despite the slowing consumer environment.

Although due to its earlier structural reforms Mexico avoided a depreciation-induced spike in inflation, the central bank nonetheless hiked rates first to offset the impacts of the Fed hike in December, then to provide support to the currency. However, the currency continued to underperform both its regional and broader emerging markets peers, as concerns about the widening current account deficit and later about the outcome of the US presidential incentivized investors to hedge their local exposure. Our underweight exposure to

Mexican rates and currency was the largest source of outperformance.

Also lifting returns was our overweight to Brazil, where a leadership change was cause for optimism. Suspended president Dilma Rousseff was ousted following an impeachment vote that found her guilty of manipulating the federal budget, and her vice-president, Michel Temer, was sworn into office. This gave investors hope of meaningful reform that could revitalise an economy in the doldrums.

Brazil was the best performing market both in terms of rates and currencies. The end of the impeachment process and the credibility of the new economic team improved policy outlook and reduced political risk, while the fall in inflation allowed market expectations to move away from further monetary policy tightening and price in a rate cutting cycle. As a result long-term bond yields declined from over 16.5% in January to below 12% by summer. At the same time the current account continued to improve, briefly turning into surplus for a first time in many years. Over the review period we have gradually increased our allocation to Brazilian bonds and currency, which had a positive contribution to the portfolio's relative performance.

Our Brazilian equity holdings were among the biggest contributors to positive stock selection. Banco Bradesco rebounded sharply to narrow its discount to sectoral peers. Mall operator Multiplan and shoe retailer Arezzo benefited from expectations that the consumer downturn was bottoming and a lower interest rate cycle was beginning. Fashion retailer Lojas Renner and car rental company Localiza outshone their counterparts despite tough operating conditions. BM&F Bovespa was up, partly in anticipation of a successful merger with Cetip. Conversely, the biggest detractor was the lack of exposure to state-owned oil giant Petrobras, embroiled in a corruption scandal. It rallied after the Temer administration appointed new management, and the real's appreciation cut its hefty US-dollar debt burden in local currency terms.

In Chile, positive stock selection was the main highlight as our holdings performed solidly. Coca Cola bottler Embotelladora Andina's results met expectations, as higher prices offset lower volumes sold, while profits received a fillip from the lower tax burden. Mall operator Parque Arauco posted healthy sales, a stable occupancy ratio and higher operating margins. It also undertook a successful capital raising to finance projects in Chile, Peru and Colombia. We exercised our rights to participate in this capital raising, given the comparative valuation advantage and the company's well-mapped development pipeline. On the macroeconomic front, first-quarter GDP growth was better than expected at 2%, but the central bank downgraded its full-year outlook,

emphasising that business sentiment remained weak and unemployment was rising.

In Peru the outcome of the presidential elections was positive for the markets, as the left-wing candidate didn't make it to the second round, which saw the victory of the more market-friendly candidate. Inflation, which exceeded the central bank's target band throughout most of the review period, has declined slightly below 3% by the end of summer, allowing the monetary authority to end the tightening cycle after a cumulative 75bps of rate hikes. As a result long term yields have fallen from over 7.5% at the start of the year to below 6% in August, and we profited from our long rates exposure.

Elsewhere, Peruvian engineering company Grana y Montero was underpinned by an improved outlook and the outcome of the presidential elections. Market-friendly Pedro Pablo Kuczynski won the presidential race, pledging to improve infrastructure, lower taxes and simplify business rules.

During the interim, we introduced Mexico's largest dairy company, Grupo Lala, and Peruvian cement producer, Cementos Pacasmayo, given their quality and solid prospects. Against this, we sold shares in Souza Cruz back to its parent British American Tobacco, which had raised its bid to privatise the unit.

Subsequently, apart from participating in Parque Arauco's capital raising, we also sold Colombian retailer Grupo Exito, owing to concerns over governance and potential future transactions.

In Colombia, although the recent recovery in oil prices has helped to stabilize external balances and the currency, fiscal and structural adjustments are needed to improve Colombia's longer-term outlook. Our underweight exposure had overall little impact on relative performance.

Uruguay initially underperformed as the economy struggled to return to growth while inflation remained high. However, the last quarter of the review period saw the currency catching up with its regional peers, helped mostly by an economic recovery of neighboring Brazil and Argentina. Our off-benchmark position in Uruguayan inflation linked bonds had an overall small positive contribution to performance.

Outlook

Latin American equities are likely to remain volatile. Uncertainty persists over the timing of the next US rate hike and the potential repercussions for the rest of the world. Oil prices are likely to hover around current levels, given the global glut. Weak copper prices are hurting Chile, a major copper exporter, and monetary policy easing may be needed to support growth. Encouragingly, president Bachelet appears

to be prioritising reform to improve both productivity and the wider economy.

In Brazil, confidence appears to be returning after months of political flux, although president Temer has the arduous task of pushing much-needed fiscal reforms through Congress, as he attempts to rein in a widening budget deficit. Mexico, closely tied to the fortunes of the US, has seen its currency plumb new depths on concerns over an unfavourable result from the US presidential elections in November. Its economy is also feeling the impact of declining exports and a slowdown in services.

Inflation should continue to moderate in the region, allowing the central banks to start monetary easing next year. Absent a major shock to currencies, the current environment of low global yields continues to be very supportive for inflows into Latin American local bond markets.

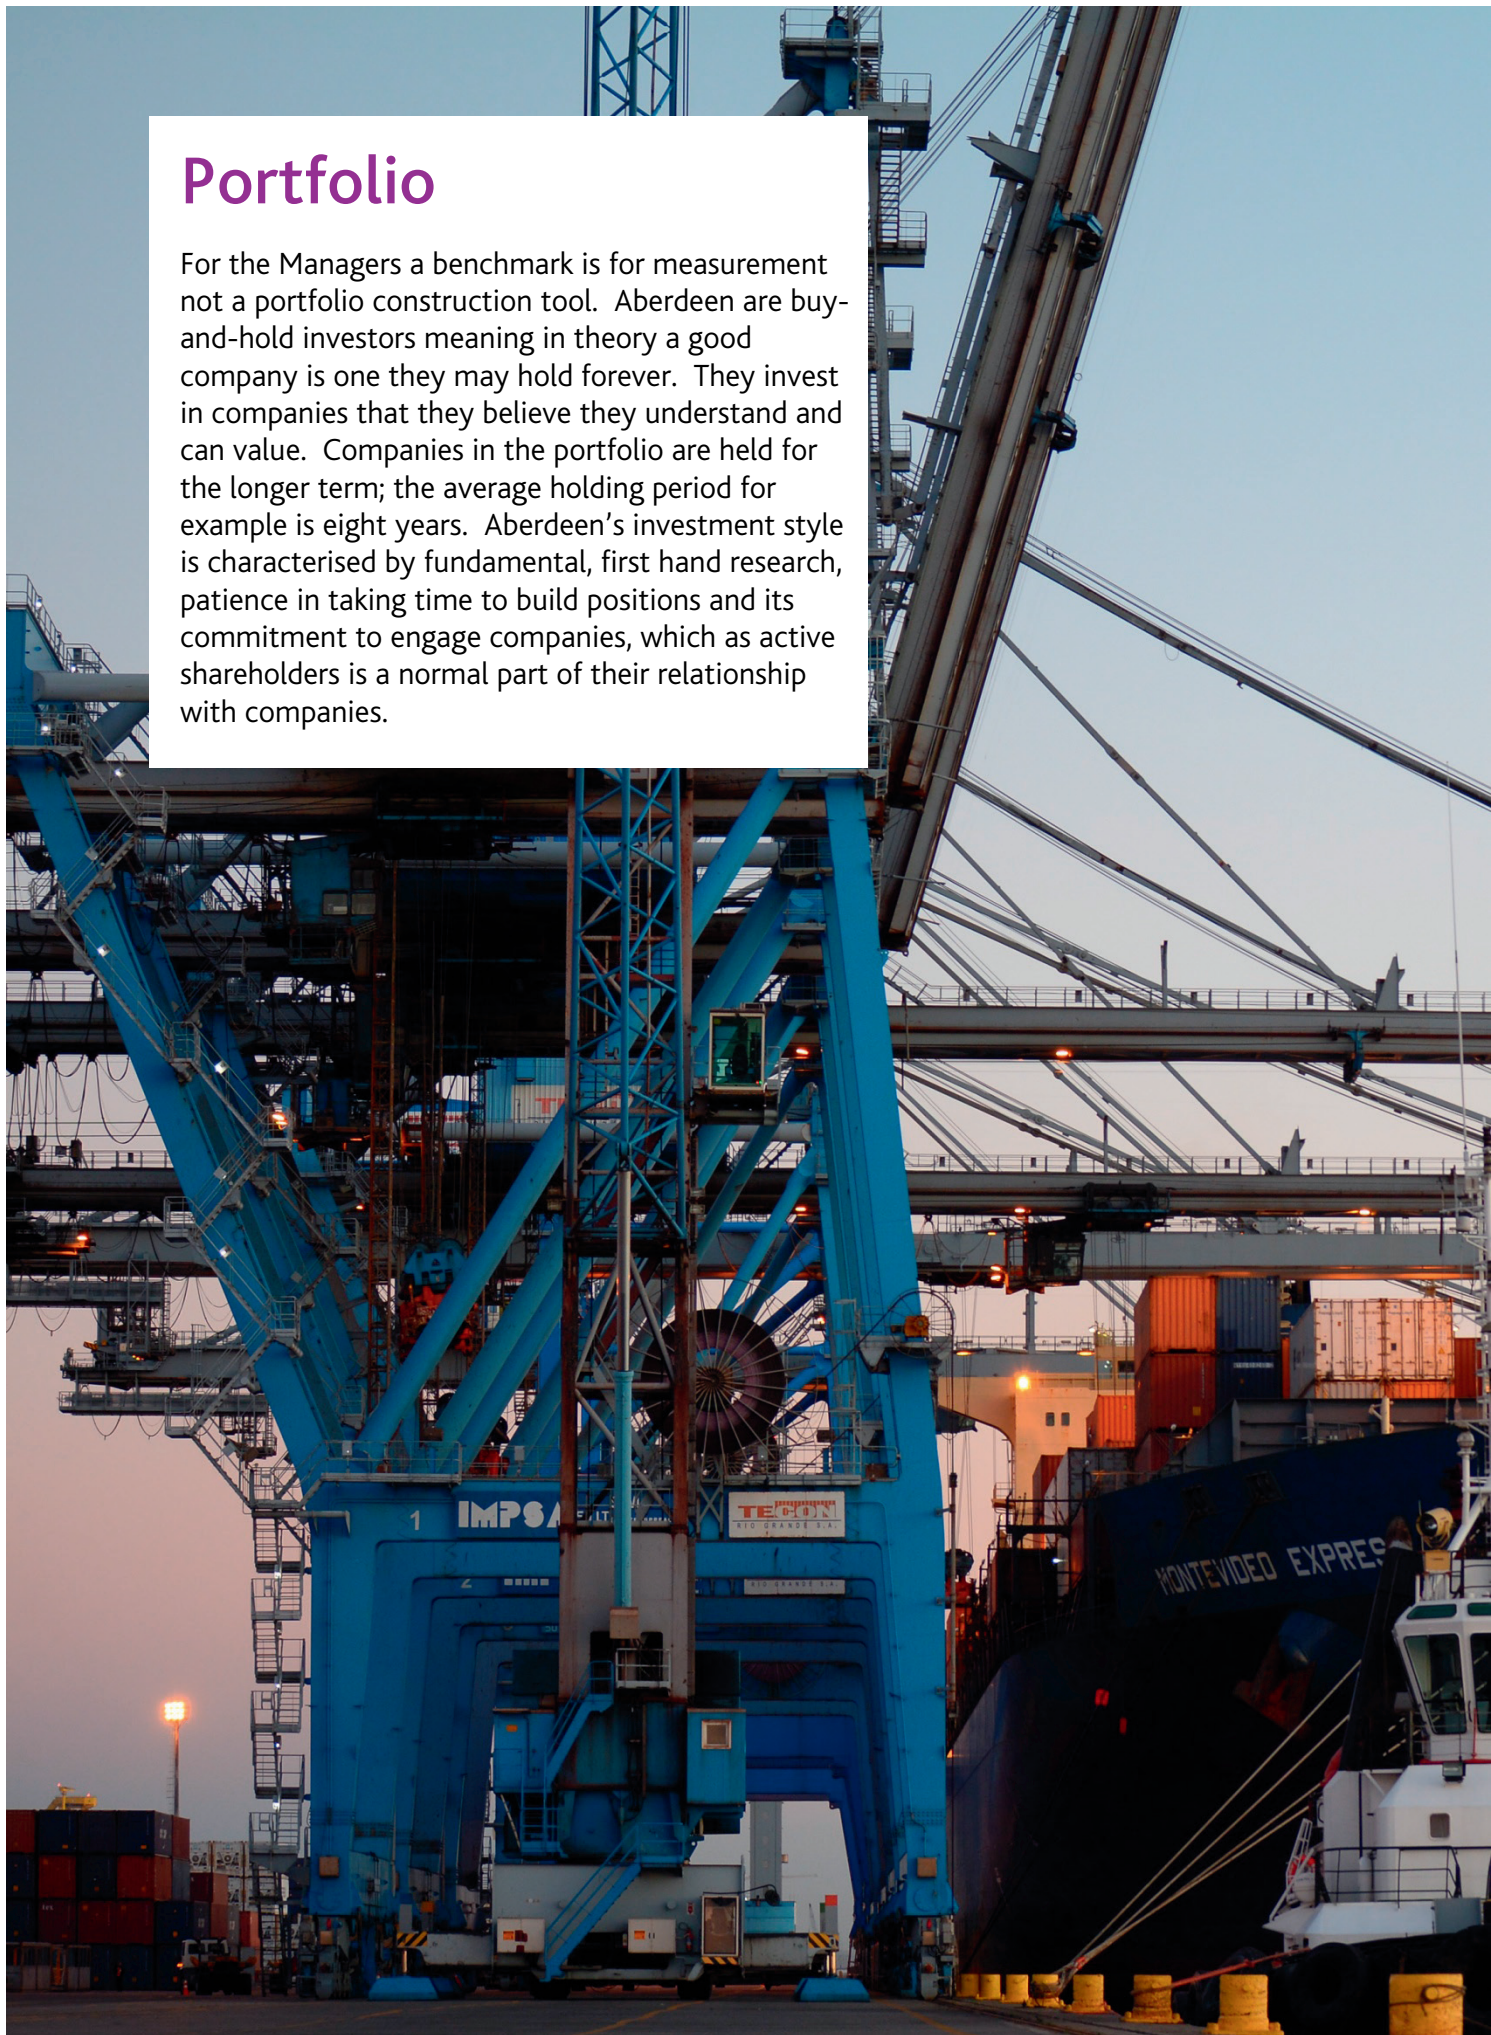

That said, an improving political climate across Latin America has resulted in an increased focus on structural reforms, particularly reducing debt and increasing productivity. This augurs well for the long-term economic potential and fundamentals for the region, albeit with necessary, and painful, adjustments over the short term. Amid the current backdrop, we are confident about our holdings, given their quality, prudent management and good long-term prospects. We continue to focus on picking and holding stocks with good fundamentals, and taking advantage of volatility to add to our preferred companies at attractive valuations, or trim those that appear overvalued.

Aberdeen Asset Managers Limited

18 October 2016

Portfolio

For the Managers a benchmark is for measurement not a portfolio construction tool. Aberdeen are buy-and-hold investors meaning in theory a good company is one they may hold forever. They invest in companies that they believe they understand and can value. Companies in the portfolio are held for the longer term; the average holding period for example is eight years. Aberdeen's investment style is characterised by fundamental, first hand research, patience in taking time to build positions and its commitment to engage companies, which as active shareholders is a normal part of their relationship with companies.

Wilson, Sons

Tecon Rio Grande is one of the largest container terminals in Brazil.

Wilson, Sons is one of the largest port, maritime and logistics operators in Brazil offering specialised solutions in the areas of port terminals, maritime towage, offshore support vessels, logistics, shipyards, and shipping agency. The Company maintains long-lasting relationships with over two thousand active clients including shipping companies, importers, exporters, oil and gas companies as well as other participants in more diverse sectors of the Brazilian economy.

Governance

The Company is committed to high standards of corporate governance and applies the principles identified in the UK Corporate Governance Code and the AIC Code of Corporate Governance for Jersey-domiciled member companies. The Directors are all non-executive and a majority of the Board is independent of the Manager and Investment Manager. The Directors supervise the management of Aberdeen Latin American Income Fund Limited and represent the interests of shareholders.

Your Board of Directors

The details of the current Directors, all of whom are non-executive and the majority of whom are independent of the Manager and Investment Manager, are set out below. The Directors supervise the management of Aberdeen Latin American Income Fund Limited and represent the interests of shareholders.

Richard Prosser

Status: Independent Non-Executive Director and Chairman

Length of Service: 6 years, appointed on 30 June 2010

Last re-elected to the Board: 13 December 2013

Experience: is a chartered accountant, a group director of the Estera Group (formerly known as Appleby Group) and a director of its wholly-owned trust company, Estera Trust (Jersey) Limited. He is a director of a number of companies including property companies, hedge funds and investment management companies. He chairs the investment policy committee of Estera Trust which monitors and evaluates the performance of asset managers throughout the Estera Group.

Committee membership: Management Engagement Committee (Chairman), Nomination Committee (Chairman) and Audit Committee

Remuneration: £26,500 per annum

All other public company directorships: Damille Investments II Limited and Phoenix Spree Deutschland Limited

Employment by Aberdeen: none

Other connections with the Fund or Aberdeen: none

Shared directorships with other Fund directors: none

Shareholding in the Company: 15,000 Ordinary shares

Martin Adams

Status: Independent Non-Executive Director

Length of Service: 6 years, appointed on 30 June 2010

Last re-elected to the Board: 10 December 2015

Experience: is an independent specialist in the management and restructuring of funds and private investments principally in emerging markets. After working for Lloyds Bank Group for 10 years, in 1991, he established Vietnam Fund Management Company Limited. Since 2012, he has been actively involved with investments and closed-end funds and investments in Asia, Europe and Brazil.

Committee membership: Management Engagement Committee, Nomination Committee and Audit Committee

Remuneration: £18,500 per annum

All other public company directorships: Eastern European Property Fund Limited, Kubera Cross-Border Fund Limited, Marwyn Value Investors Limited, Terra Catalyst Fund, Trading Emissions PLC, Trinity Capital PLC, Vietnam Phoenix Fund Limited and VinaCapital Vietnam Opportunity Fund Limited

Employment by Aberdeen: none

Other connections with the Fund or Aberdeen: none

Shared directorships with other Fund directors: none

Shareholding in the Company: 49,550 Ordinary

Martin Gilbert

Status: Non-Independent Non-Executive Director

Length of Service: 6 years, appointed on 30 June 2010

Last re-elected to the Board: 10 December 2015

Experience: a founder shareholder and chief executive of Aberdeen Asset Management PLC. He holds a number of investment trust and other company directorships. After qualifying as a chartered accountant in 1982, he thereafter pursued a career in investment management.

Committee membership: Nomination Committee

Remuneration: £nil

All other public company directorships:

Aberdeen Asia-Pacific Income Fund Inc, Aberdeen Asia-Pacific Income Investment Company Limited, Aberdeen Asian Smaller Companies Investment Trust PLC, Aberdeen Asset Management PLC, Aberdeen Global Income Fund Inc, Aberdeen Liquidity Fund (Lux), British Sky Broadcasting Group Plc, The Asia Tigers Fund, Inc and The India Fund, Inc.

Employment by Aberdeen: Chief executive of Aberdeen Asset Management PLC

Other connections with the Fund or Aberdeen: Director of a number of Aberdeen-managed investment companies

Shared directorships with other Fund directors: none

Shareholding in the Company: 75,000 Ordinary shares

George Baird

Status: Independent Non-Executive Director and Audit Committee Chairman

Length of Service: 6 years, appointed on 9 July 2010

Last re-elected to the Board: 9 December 2014

Experience: graduated from Dundee University with a Law degree in 1971 and joined Arthur Young McLelland Moores & Co, qualifying as a chartered accountant in 1975. After working in local government in Scotland, he was appointed Treasurer of the States of Jersey in 1991. Prior to his retirement in 2002, he was group finance director of Mourant du Feu & Jeune. He holds several non-executive directorships in the Channel Islands.

Committee membership: Audit Committee (Chairman), Management Engagement Committee and Nomination Committee

Remuneration: £21,000 per annum

All other public company directorships: Geiger Counter Limited, LXB Retail Properties Plc and Yatra Capital Limited

Employment by Aberdeen: none

Other connections with the Fund or Aberdeen: none

Shared directorships with other Fund directors: none

Shareholding in the Company: none

Directors' Report

The Directors present their Report and the audited financial statements for the year ended 31 August 2016.

Status

The Company is registered with limited liability in Jersey as a closed-ended investment company under the Companies (Jersey) Law 1991 with registered number 106012. In addition, the Company is constituted and regulated as a collective investment fund under the Collective Investments Funds (Jersey) Law 1988. The Company has no employees and makes no political or charitable donations

The Company intends to manage its affairs so as to be a qualifying investment for inclusion in the stocks and shares component of an Individual Savings Account and it is the Directors' intention that the Company should continue to be a qualifying investment.

The Company is a member of the Association of Investment Companies ("AIC").

Results and Dividends

Details of the Company's results and dividends are shown on page 12 of this Annual Report.

Management Arrangements

The Company has an agreement (the "Management Agreement") with APWML for the provision of management services, details of which are shown in notes 5 and 6 to the financial statements.

Under the Management Agreement, Aberdeen is entitled to both a management fee and a company secretarial and administration fee. APWML has agreed to waive the company secretarial and administration fee of £112,000 for the year ended 31 August 2016 (the fee was also waived for the year ended 31 August 2015). This waiver constituted a smaller related party transaction for the purpose of LR 11.1.10 R of the Financial Conduct Authority's Listing Rules. In light of the improvement in the Company's revenue account the Board has agreed to reinstate the company secretarial and administration fee for the year ending 31 August 2017.

The Directors review the terms of the Management Agreement on a regular basis and have confirmed that, due to the investment skills, experience and commitment of Aberdeen, in their opinion the continuing appointment of APWML, on the terms agreed, is in the interests of Shareholders as a whole.

Share Capital

As at 31 August 2016 there were 64,152,824 Ordinary shares and 2,420,000 Ordinary shares held in treasury. Details of

changes to the Company's shares in issue during the year are provided in 'Your Company's Share Capital History' on page 76.

The Final Subscription Date for the Company's Subscription Shares was 31 December 2015. In accordance with the terms of the Articles of Association, a trustee was appointed over the remaining Subscription Shares whose conversion rights were not exercised. The outstanding Subscription Shares were not exercised by the Trustee as the Trustee considered that the exercise of the Subscription Share rights and sale of the resulting Ordinary shares in the market would not generate sufficient net proceeds of sale for distribution to the holders of the Subscription Shares. Consequently the remaining Subscription Shares have now been converted automatically into Deferred shares which have been repurchased by the Company for a nominal consideration and cancelled.

Ordinary shareholders are entitled to vote on all resolutions which are proposed at general meetings of the Company. The Ordinary shares carry a right to receive dividends. On a winding up, after meeting the liabilities of the Company, the surplus assets will be paid to Ordinary shareholders in proportion to their shareholdings.

Risk Management

Details of the financial risk management policies and objectives relative to the use of financial instruments by the Company are set out in note 16 to the financial statements.

Directors

The current Directors, Richard Prosser, Martin Adams, George Baird and Martin Gilbert, together with Jeremy Arnold who retired from the Board on 10 December 2015, were the only Directors in office during the period.

The Directors' beneficial holdings are disclosed in the Directors' Remuneration Report. No Director has a service contract with the Company. The Directors' interests in contractual arrangements with the Company are as shown in note 18 to the financial statements. Details of the Directors retiring by rotation at the Annual General Meeting are disclosed below under Policy on Tenure.

Corporate Governance

The Company is committed to high standards of corporate governance. The Board is accountable to the Company's shareholders for good governance and, as required by the Listing Rules of the UK Listing Authority, has applied the principles identified in the UK Corporate Governance Code (published in September 2014 and effective for financial years commencing on or after 1 October 2014) for the year ended 31 August 2016. The UK Corporate Governance Codes

are available on the Financial Reporting Council's website: frc.org.uk.

The Board has considered the principles and recommendations of the AIC Code of Corporate Governance for Jersey-domiciled member companies as published in February 2015 (AIC Code) by reference to the AIC Corporate Governance Guide for Investment Companies (AIC Guide). The AIC Code, as explained by the AIC Guide, addresses all the principles set out in the UK Corporate Governance Code, as well as setting out additional principles and recommendations on issues which are of specific relevance to the Company. Both the AIC Code and the AIC Guide are available on the AIC's website: theaic.co.uk.

The Company has complied throughout the accounting period with the relevant provisions contained within the AIC Code and the relevant provisions of the UK Corporate Governance Code except as set out below.

The UK Corporate Governance Code includes provisions relating to:

- the role of the chief executive (A.1.2);
- executive directors' remuneration (D.2.1 and D.2.2);
- the need for a Senior Independent Director; and,
- and the need for an internal audit function (C.3.5).

For the reasons set out in the AIC Code, and as explained in the UK Corporate Governance Code, the Board considers that these provisions are not relevant to the position of the Company, being an externally-managed investment company. In particular, all of the Company's day-to-day management and administrative functions are outsourced to third parties. As a result, the Company has no executive directors, employees or internal operations. The Company has therefore not reported further in respect of these provisions. The full text of the Company's Corporate Governance Statement can be found on the Company's website, latamincome.co.uk.

Directors have attended Board and Committee meetings during the year ended 31 August 2016 as follows (with their eligibility to attend the relevant meeting in brackets):

	Board	Audit Committee	MEC	Nomination Committee
R Prosser	4 (4)	2 (2)	1 (1)	1 (1)
M Adams	3 (4)	1 (2)	0 (1)	0 (1)
J Arnold*	1 (1)	1 (1)	1 (1)	1 (1)
G Baird	4 (4)	2 (2)	1 (1)	1 (1)
M Gilbert**	2 (4)	N/A	N/A	0 (1)

* Mr Arnold retired on 10 December 2015

**Mr Gilbert is not a member of the Audit Committee or Management Engagement Committee

Policy on Tenure

The Board's policy on tenure is that Directors need not serve on the Board for a limited period of time only. The Board does not consider that the length of service of a Director is as important as the contribution he or she has to make, and therefore the length of service will be determined on a case-by-case basis. In accordance with corporate governance best practice, Directors who have served for more than nine years or who are non-independent will voluntarily offer themselves for re-election on an annual basis in the future.

The Board has a schedule of matters reserved to it for decision and the requirement for Board approval on these matters is communicated directly to the senior staff of Aberdeen. Such matters include strategy, gearing, treasury and dividend policy. Full and timely information is provided to the Board to enable the Directors to function effectively and to discharge their responsibilities. The Board also reviews the financial statements, performance and revenue budgets.

The Board has put in place necessary procedures to conduct, on an annual basis, an appraisal of the Chairman of the Board, Directors' individual self-evaluation and a performance evaluation of the Board as a whole. For the year to 31 August 2016 this was undertaken using detailed questionnaires followed by one-on-one discussions. The Board also reviewed the Chairman's and Directors' other commitments and is satisfied that the Chairman and other Directors are capable of devoting sufficient time to the Company. Accordingly, the Board has no hesitation in recommending to Shareholders the reappointment of Mr Gilbert and Mr Prosser who are each due to retire at the forthcoming AGM and submit themselves for re-election.

There is an agreed procedure for Directors to take independent professional advice if necessary and at the Company's expense. This is in addition to the access which every Director has to the advice and services of the Company Secretary, which is responsible to the Board for ensuring that Board procedures are followed and that applicable rules and regulations are complied with.

Board Committees

Under the United Kingdom Listing Authority's Listing Rules, where an investment company has only non-executive directors, the UK Code principles relating to directors' remuneration do not apply. Accordingly, the Board has not appointed a separate remuneration committee. The remuneration of the Directors has been set in order to attract individuals of a calibre appropriate to the future development of the Company. The Company's policy on

Directors' Report *continued*

Directors' remuneration, together with details of the remuneration of each Director, is detailed in the Directors' Remuneration Report on pages 35 to 37.

Audit Committee

The Report of the Audit Committee is on pages 32 to 34.

Management Engagement Committee ("MEC")

The Board has appointed a MEC which comprises three independent Directors, Mr R Prosser (Chairman), Mr M Adams and Mr G Baird. The function of this Committee is to review performance and to ensure that the Manager and the Investment Manager comply with the terms of the Management Agreement and that the provisions of the agreement follow industry practice and remain competitive and in the best interest of Shareholders as a whole. The Committee remains satisfied that the continuing appointment of Aberdeen on the terms agreed is in the interests of Shareholders as a whole. The key factors taken into account in reaching this decision are the investment skills, experience and commitment and performance record of Aberdeen. The Management Agreement may be terminated by either party by giving not less than 12 months' notice in writing.

Nomination Committee

Appointments to the Board of Directors are considered by the Nominations Committee which comprises the entire Board and whose Chairman is Mr R Prosser. Possible new Directors are identified against the requirements of the Company's business and the need to have a balanced Board. Every Director is entitled to receive appropriate training as deemed necessary. The Board's overriding priority when appointing new Directors to the Board will be to identify the candidate with the best range of skills and experience to complement existing Directors.

The Articles of Association require that all Directors shall submit themselves for election by Shareholders at the first opportunity following their appointment and shall not remain in office longer than three years since their last election or re-election without submitting themselves to re-election. Mr Gilbert is Chief Executive of Aberdeen Asset Management PLC and under the United Kingdom Listing Authority's Listing Rules is subject to annual re-election by Shareholders. Accordingly, at the AGM of the Company to be held on 8 December 2016, Mr Gilbert will submit himself for re-election. The Nomination Committee resolved that Mr Prosser will also stand for re-election at the AGM consistent with the re-election process. The Board considers that there is a balance of skills and experience within the Board relevant to the leadership and direction of the Company and that all Directors contribute effectively

Diversity

Since launch in 2010, the Company has not appointed any new Directors to the Board. The Board's overriding priority when it becomes necessary to appoint new Directors to the Board will be to identify the candidate with the best range of skills and experience to complement the existing Directors. The Board recognises the benefits of diversity in the composition of the Board. When Board positions become available in the future as a result of retirement or resignation, the Company will ensure that a diverse group of candidates is considered.

Going Concern

In accordance with the Financial Reporting Council's guidance the Directors have undertaken a rigorous review of the Company's ability to continue as a going concern. The Company's assets consist of a diverse portfolio of listed equities, equity-related investments and fixed income investments which in most circumstances are realisable within a very short timescale.

The Company has a £10 million multi currency loan facility with Scotiabank Europe plc which is due to mature in August 2017. Closer to the time the Directors will review options to replace the facility with Scotia. However, at this stage it is too early to confirm that the facility will be renewed. If acceptable terms are available from the existing bankers, or any alternative, the Company expects to continue to access a similarly sized facility. However, should the Board decide not to replace the facility any outstanding borrowing would be repaid through the proceeds of equity and/or bond sales.

The Company has considerable financial resources and, as a consequence, the Directors believe that the Company is well placed to manage its business risks successfully despite uncertainties in the economic outlook.

The Directors are mindful of the principal risks and uncertainties disclosed on page 10 and have reviewed forecasts detailing revenue and liabilities and the Directors believe that the Company has adequate financial resources to continue its operational existence for the foreseeable future and at least 12 months from the date of this Annual Report. Accordingly, the Directors continue to adopt the going concern basis in preparing the financial statements of the Company as at the date of the approval of this report.

Internal Controls and Risk Management

The design, implementation and maintenance of controls and procedures to safeguard the assets of the Company and to manage its affairs properly extends to operational and compliance controls and risk management. The Board has prepared its own risk register which identifies potential risks both major and minor relating to: strategy; investment

management; Shareholders; marketing; gearing; regulatory and financial obligations; third party service providers and the Board. The Board considers the potential cause and possible impact of these risks as well as reviewing the controls in place to mitigate these potential risks. A risk is rated by having a likelihood and an impact rating and the residual risk is plotted on a "heat map" and is reviewed regularly.

The Board is ultimately responsible for the Company's system of internal control and for reviewing its effectiveness. The Financial Reporting Council's Guidance (the FRC Guidance), assists Directors in applying section C.2 of the UK Code. The Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Company. This process has been in place for the period under review and up to the date of approval of this Annual Report and financial statements, and is regularly reviewed by the Board and accords with the guidance. The Board has reviewed the effectiveness of the system of internal control. In particular, it has reviewed and updated the process for identifying and evaluating the significant risks affecting the Company and policies by which these risks are managed. The significant risks faced by the Company, are detailed in the Strategic Report.

The key components designed to provide effective internal control are outlined below:

- Aberdeen prepares monthly forecasts and management accounts which allow the Board to assess the Company's activities and review its performance;
- the Board and Aberdeen have agreed clearly defined investment criteria, specified levels of authority and exposure limits; reports on these issues, including performance statistics and investment valuations, are regularly submitted to the Board and there are meetings with Aberdeen as appropriate;
- as a matter of course Aberdeen's compliance department continually reviews its' operations;
- written agreements are in place which specifically define the roles and responsibilities of the Manager and other third-party service providers and the Committee reviews, where relevant, ISAE3402 Reports, a global assurance standard for reporting on internal controls for service organisations; The Board has reviewed the exceptions arising from the Manager's ISAE3402 for the year to 30 June 2016;
- at its October 2016 meeting, the Audit Committee members carried out an annual assessment of internal controls for the year ended 31 August 2016 by considering documentation from Aberdeen, including the internal audit and compliance functions and taking account of events since 31 August 2016. The results of the assessment were

then reported to the Directors at the Board meeting which followed; and,

- the Board has considered the need for an internal audit function but, because of the compliance and internal control systems in place at Aberdeen, has decided to place reliance on Aberdeen's systems and internal audit procedures.

Internal control systems are designed to meet the Company's particular needs and the risks to which it is exposed. Accordingly, the internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives and by their nature can only provide reasonable and not absolute assurance against misstatement and loss.

Substantial Interests

The Company has been advised that the following Shareholders owned 3% or more of the issued Ordinary share capital of the Company at 31 August 2016:

Shareholder	Number Of shares held	% held
1607 Capital Partners	6,635,428	10.3
Aberdeen Retail Plans	6,421,241	10.0
City of London Investment Management	6,064,812	9.5
Hargreaves Lansdown, stockbrokers	5,735,998	8.9
Alder Investment Management	2,387,632	3.7
CCLA Investment Management	2,350,000	3.7
Aberdeen Private Wealth Management	2,152,500	3.4
Barclays Stockbrokers	1,997,225	3.1
Charles Stanley	1,953,386	3.0
Philip J Milton Stockbrokers	1,951,306	3.0

On 13 September 2016, City of London notified the Company that its holding had increased to 6,665,854 Ordinary shares (10.4%). On 18 October 2016 1607 Capital Partners notified the Company that its percentage holding had decreased to 9.9%. There have been no other significant changes notified in respect of the above holdings between 31 August 2016 and 18 October 2016.

Alternative Investment Fund Managers Directive ("AIFMD")

On 14 July 2014, the Jersey Financial Services Commission granted the Company a certificate of exemption from the application of the Alternative Investment Funds (Jersey) Regulations 2012 to any marketing it may carry out within any EU member state.

APWML, as the Company's non-EEA alternative investment fund manager, also notified the UK Financial Conduct Authority ("FCA") in accordance with the requirements of the UK National Private Placement Regime for inclusion of the Company on the UK register as a non-EEA alternative investment fund being marketed in the UK.

In addition, in accordance with Article 23 of the AIFMD and Rule 3.2.2 of the FCA FUND Sourcebook, APWML is required to make available certain disclosures for potential investors in the Company and these are available on the Company's website: latamincome.co.uk.

Special Business at the Annual General Meeting

Directors' Authority to Allot Relevant Securities

There are no provisions under Jersey law which confer rights of pre-emption upon the issue or sale of any class of shares in the Company. However, as the Ordinary shares are traded on the LSE and have a premium listing, the Company is required to offer pre-emption rights to its Shareholders and the Articles of Association reflect this. Ordinary shares will only be issued at a premium to the prevailing NAV per Ordinary share and, therefore, will not be disadvantageous to existing Ordinary Shareholders.

Unless previously disapplied by special resolution, in accordance with the Listing Rules of the Financial Conduct Authority, the Company is required to first offer any new shares or securities (or rights to subscribe for, or to convert or exchange into, shares) proposed to be issued for cash to Shareholders in proportion to their holdings in the Company. In order to provide for such share issues, your Board is therefore also proposing that an annual disapplication of the pre-emption rights is given to the Directors so that they may issue shares as and when appropriate. Accordingly, Resolution 7, a Special Resolution, proposes a disapplication of the pre-emption rights in respect of 10% of the shares in issue, set to expire on the earlier of eighteen months from the date of the resolution or at the conclusion of the Annual General Meeting to be held in 2017.

Purchase of the Company's Securities

In the past the Company has quoted the aim of its discount management policy as being to try to maintain the price at which the Ordinary shares trade relative to their NAV at a discount of no more than 5%. As stated in the Chairman's Statement, during the year under review the Company bought back 870,000 Ordinary shares for treasury at a total cost of £394,000. Subsequent to the period end a further 145,000 Ordinary shares have been purchased for treasury at a cost of £103,000.

Purchases of Ordinary shares will only be made through the market for cash at prices below the prevailing exclusive of income NAV per Ordinary share (as last calculated) where

the Directors believe such purchases will enhance Shareholder value and are likely to assist in narrowing any discount to NAV at which the Ordinary shares may trade.

Resolution 6, a Special Resolution, will be proposed to renew the Directors' authority to make market purchases of the Ordinary shares in accordance with the provisions of the Listing Rules of the Financial Conduct Authority. The Company will seek authority to purchase up to a maximum of 9,594,772 Ordinary shares (representing 14.99 per cent. of the current issued Ordinary share capital excluding treasury shares). The authority being sought shall expire at the conclusion of the Annual General Meeting in 2017 unless such authority is renewed prior to that time. Any Ordinary shares purchased in this way will either be cancelled and the number of Ordinary shares will be reduced accordingly, or the Ordinary shares will be held in treasury, in accordance with the authority previously conferred by Shareholders.

The Companies (Jersey) Law 1991 allows companies to either cancel shares or hold them in treasury following a buy-back. These powers give Directors additional flexibility and the Board considers that it is in the interest of the Company that such powers be available, including the power to hold treasury shares. Any future sales of Ordinary shares from treasury will only be undertaken at a premium to the prevailing NAV per Ordinary share for the benefit of all Shareholders.

Reappointment of Independent Auditor

Our auditor, Ernst & Young LLP, has indicated its willingness to remain in office. The Directors will place a Resolution before the Annual General Meeting to re-appoint them as independent auditor for the ensuing year, and to authorise the Directors to determine their remuneration.

Recommendation

Your Board considers Resolutions 6 and 7 to be in the best interests of the Company and its members as a whole. Accordingly, your Board recommends that Ordinary Shareholders should vote in favour of Resolutions 6 and 7 to be proposed at the Annual General Meeting, as they intend to do in respect of their own beneficial shareholdings amounting to 199,550 Ordinary shares.

Directors' & Officers Liability Insurance

Directors' & Officers' liability insurance cover has been maintained throughout the period at the expense of the Company.

Relations with Shareholders

The Directors place a great deal of importance on communication with Shareholders. The Chairman welcomes feedback from all Shareholders and meets periodically with

the largest Shareholders to discuss the Company. The Annual Report and financial statements are widely distributed to other parties who have an interest in the Company's performance. Shareholders and investors may obtain up to date information on the Company through Aberdeen's freephone information service and the Company's website: latamincome.co.uk.

The Board's policy is to communicate directly with Shareholders and their representative bodies without the involvement of the management group (either the Company Secretary or Aberdeen) in situations where direct communication is required and representatives from the Board meet periodically with major Shareholders.

The Notice of the Annual General Meeting included within the Annual Report and financial statements is ordinarily sent out at least 20 working days in advance of the meeting. All Shareholders have the opportunity to put questions to the Board or Aberdeen, either formally at the Company's Annual General Meeting or informally following the meeting. The Company Secretary is available to answer general Shareholder queries at any time throughout the year. The Directors are keen to encourage dialogue with Shareholders and the Chairman welcomes direct contact from Shareholders.

UK Stewardship Code and Proxy Voting as an Institutional Shareholder

Responsibility for actively monitoring the activities of

portfolio companies has been delegated by the Board to the Manager which has sub-delegated that authority to the Investment Manager.

The full text of the Company's response to the Stewardship Code may be found on the Company's website.

Socially Responsible Investment Policy

The Board is aware of its duty to act in the best interests of the Company. As an investment company, the Company has no direct social, environmental or community responsibilities. However, the Board acknowledges that there are risks associated with investment in companies which fail to conduct business in a socially responsible manner and the Board, therefore, ensures that they take regular account of the social, environment and ethical factors, which may affect the performance or value of the Company's investments.

Report of the Audit Committee

I am pleased to present the report of the Audit Committee for the year ended 31 August 2016 following my appointment as Chairman of the Audit Committee in succession to Mr Arnold who retired from the Board on 10 December 2015.

Committee Composition

The Audit Committee operates within clearly defined terms of reference and comprises three independent Directors, myself (Mr G Baird, Chairman with recent and relevant experience), Mr M Adams and Mr R Prosser. The UK Code and the AIC Code acknowledge that some of the standard UK Code provisions may not be specifically appropriate to investment companies and in this regard the Board believes that it is appropriate for all the independent Directors to constitute the Audit Committee.

Functions of the Committee

The principal function of the Committee is to assist the Board in relation to the reporting of financial information, the review of financial controls and the management of risk. The Committee has defined terms of reference which are reviewed and re-assessed for their adequacy on an annual basis. Copies of the terms of reference are published on the Company's website.

The Committee's main audit review functions are listed below:

- to review and monitor the internal control systems and risk management systems on which the Company is reliant;
- to consider annually whether there is a need for the Company to have its own internal audit function;
- to monitor the integrity of the interim and annual financial statements of the Company by reviewing, and challenging where necessary, the actions and judgements of Aberdeen which acts as Administrator and Company Secretary;
- to review, and report to the Board on, the significant financial reporting issues and judgements made in connection with the preparation of the Company's financial statements, half yearly reports, announcements and related formal statements;
- to review the content of the Annual Report and financial statements and advise the Board on whether, taken as a whole, it is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Company's performance, business model and strategy;
- to meet with the external auditor to review their proposed audit programme of work and the findings of the auditor. The Committee uses this as an opportunity to assess the effectiveness of the audit process;
- to develop and implement policy on the engagement of the external auditor to supply non-audit services. (During the period under review, no fees were paid to the auditor in

respect of non audit services – the Board will review any future fees in the light of the requirement to maintain the auditor's independence);

- to review an annual statement from Aberdeen detailing the arrangements in place within Aberdeen whereby staff may, in confidence, escalate concerns about possible improprieties in matters of financial reporting or other matters;
- to make recommendations in relation to the appointment of the external auditor and to approve the remuneration and terms of engagement of the external auditor; and,
- to monitor and review annually the external auditor's independence, objectivity, effectiveness, resources and qualification; and,
- to investigate, when an auditor resigns, the reasons giving rise to such resignation and consider whether any action is required.

Activities During the Year

The Audit Committee met twice during the year when it considered the Annual Report and the Half Yearly Report in detail. Representatives of the Aberdeen Group's internal audit, risk and compliance departments reported to the Board at these meetings on matters such as internal control systems, risk and the conduct of the business in the context of its regulatory environment. The Committee also met in private with the auditor without any management representatives in attendance.

Review of Internal Control Systems and Risk

The Committee considers the internal control systems and a matrix of risks at each of its meetings. There is more detail on the process of these reviews in the Directors' Report.

Significant Issues

During its review of the Company's financial statements for the year ended 31 August 2016, the Audit Committee considered the following significant issues, in particular those communicated by the auditor during their reporting:

Mispricing of Investments due to the Inappropriate Use of Pricing Inputs

The pricing of investments is undertaken in accordance with the accounting policies on fair value measurement as disclosed on page 53. The fair value is derived from unadjusted quoted bid prices in active markets, with the exception of inflation-linked bonds whose quoted bid prices are adjusted for indexation. The audit includes independent confirmation of the pricing of all investments. The portfolio is reviewed and verified by Aberdeen on a regular basis and management accounts, including a full portfolio listing, are prepared each month and circulated to the Board.

Recognition of Dividend and Interest Income

The recognition of investment income is undertaken in accordance with accounting policy note 2(b) to the financial statements on page 52. Special dividends are allocated to the capital or revenue accounts according to the nature of the payment and the intention of the underlying company. Aberdeen provides monthly internal control reports to the Board. The allocation of material special dividends is also reviewed by the auditor.

Review of the Annual Report and Financial Statements

The Committee is responsible for the preparation of the Company's Annual Report and financial statements. The process is extensive, requiring input from a number of different third party service providers. The Committee reports to the Board on whether, taken as a whole, the Annual Report and financial statements are fair, balanced and understandable.

The Committee has considered the following matters:

- the existence of a comprehensive control framework surrounding the production of the Annual Report and financial statements which includes a number of different checking processes;
- the existence of extensive levels of reviews as part of the production process involving the depositary, the Manager, the Company Secretary and the auditor together as well as the Committee's own expertise;
- the controls in place within the various third party service providers to ensure the completeness and accuracy of the financial records and the security of the Company's assets;
- the externally audited internal control reports of the Manager, Depositary and related service providers.

The Committee has reviewed the Annual Report and the work undertaken by the third party service providers and is satisfied that, taken as a whole, the Annual Report and financial statements is fair balanced and understandable. In reaching this conclusion, the Committee has assumed that the reader of the Annual Report would have a reasonable level of knowledge of the investment trust industry in general and of investment trusts in particular. The Committee has reported its findings to the Board which in turn has made its own statement in this regard in the Directors' Responsibility Statement on page 40.

Review of Auditor

The Audit Committee has reviewed the effectiveness of the auditor including:

- independence (the auditor discusses with the Audit Committee, at least annually, the steps it takes to ensure its

independence and objectivity and makes the Committee aware of any potential issues, explaining all relevant safeguards. The audit fees paid to Ernst & Young LLP are disclosed in note 6 and no non audit fees were paid to Ernst & Young LLP in the year);

- quality of audit work including the ability to resolve issues in a timely manner (identified issues are satisfactorily and promptly resolved), its communications/presentation of outputs (the explanation of the audit plan, any deviations from it and the subsequent audit findings are comprehensive and comprehensible), and working relationship with management (the auditor has a constructive working relationship with Aberdeen); and,
- quality of people and service including continuity and succession plans (the audit team is made up of sufficient, suitably experienced staff with provision made for knowledge of the investment company sector and retention on rotation of the partner).

Ernst & Young LLP has held office as auditor since the launch of the Company in 2010; in accordance with professional guidelines the audit partner is rotated after at most five years, and this is the first year for the current audit partner. The Committee considers Ernst & Young LLP, the Company's auditor, to be independent of the Company. The Audit Committee is aware of developments in best practice in regard to audit tendering and will keep under review the benefits of conducting an audit tender in the future.

The Audit Committee is satisfied that there is no need to put the audit appointment out to tender at the present time. The Audit Committee therefore supports the recommendation to the Board that the re-appointment of Ernst & Young LLP be put to Shareholders for approval at the AGM. Shareholders have the opportunity at each AGM to vote on the reappointment of the auditor for the forthcoming year.

Accountability and Audit

The respective responsibilities of the Directors and the auditor in connection with the financial statements are set out on pages 40 and 44.

Each Director confirms that, so far as he is aware, there is no relevant audit information of which the Company's auditor is unaware, and he has taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information. Additionally there are no important events since the period end other than as disclosed in the notes to the financial statements

The Directors have reviewed the level of non-audit services provided by the independent auditor during the year,

Report of the Audit Committee continued

together with the independent auditor's procedures in connection with the provision of such services, and remain satisfied that the auditor's objectivity and independence is being safeguarded.

George Baird

Audit Committee Chairman

18 October 2016

Directors' Remuneration Report

The Board has prepared this report on a voluntary basis in accordance with the UK regulations governing the disclosure and approval of Directors' remuneration.

The Company's auditor has not audited any of the disclosures provided in this Directors' Remuneration Report.

This Remuneration Report comprises three parts:

- a Remuneration Policy, which was approved by a binding Shareholder vote at the AGM held in 2014 and which will be subject to Shareholder approval every three years thereafter. Should the Remuneration Policy be varied during this interval, then Shareholder approval for the new Remuneration Policy will be sought;
- an Implementation Report, which provides information on how the policy has been applied during the year and which will be subject to an advisory vote on the level of remuneration paid during the year as set out in the Implementation Report; and,
- an Annual Statement.

There have been no changes to the Directors' Remuneration Policy during the period of this Report nor are there any proposals for the year ending 31 August 2017.

Remuneration Policy

This part of the Remuneration Report provides details of the Company's Remuneration Policy for Directors of the Company. This policy takes into consideration the principles of UK Corporate Governance and the AIC's recommendations regarding the application of those principles to investment companies. As the Company has no employees and the Board is comprised wholly of non-executive Directors and given the size and nature of the Company, the Board has not established a separate Remuneration Committee. Directors' remuneration is determined by the Board as a whole.

The Directors are non-executive and their fees comply with the Company's Articles of Association which limit the aggregate annual fees payable to the Board of Directors to £250,000 (Article 85). The level may be increased by Shareholder resolution from time to time. Subject to this overall limit, the Board's policy is that the remuneration of non-executive Directors should reflect the nature of their duties, responsibilities and the value of their time spent and be fair and comparable to that of other investment companies that are similar in size, have a similar capital structure and have a similar investment objective. Fees are reviewed annually against the Company's peer group and if considered appropriate, increased accordingly. In the past year aggregate fees of £71,118 were paid to the Directors.

	2016 £	2015 £
Chairman	26,500	26,500
Chairman of Audit Committee	21,000	21,000
Director	18,500	18,500

Appointment

- The Company only intends to appoint non-executive Directors.
- All the Directors are non-executive appointed under the terms of Letters of Appointment.
- Directors must retire and be subject to re-election at the first AGM after their appointment, and at least every three years thereafter. Directors associated with the Investment Manager are subject to annual re-election.
- New appointments to the Board will be placed on the fee applicable to all Directors at the time of appointment (currently £18,500).
- No incentive or introductory fees will be paid to encourage a Directorship.
- The Directors are not eligible for bonuses, pension benefits, share options, long-term incentive schemes or other benefits.
- The Company indemnifies its Directors for all costs, charges, losses, expenses and liabilities which may be incurred in the discharge of duties, as a Director of the Company.
- Mr Gilbert has agreed to waive any entitlement to a fee in respect of his appointment as a non-executive director of the Company.

Performance, Service Contracts, Compensation and Loss of Office

- The Directors' remuneration is not subject to any performance related fee.
- No Director has a service contract with the Company.
- Mr Gilbert is a director of the parent company of the Manager and Investment Manager and his interests in the contractual arrangements with the Company are shown in note 18 to the financial statements. No other Director had an interest in contracts with the Company during the period or subsequently.
- The terms of appointment provide that a Director may be removed subject to three months' notice.
- Compensation will not be due upon leaving office.
- No Director is entitled to any other monetary payment or any assets of the Company.

Directors' & Officers' liability insurance cover is maintained by the Company on behalf of the Directors. The Company's Articles indemnify each Secretary, agent and servant of the Company out of the assets of the Company in relation to charges, losses, liabilities, damages and expenses incurred in

Directors' Remuneration Report continued

the course of the discharge of their duties provided that such indemnity is not available in circumstances where there is fraud, wilful misconduct or negligence. Directors (and every present or former officer of the Company) are indemnified out of the assets of the Company in so far as Jersey law allows.

The above Remuneration Policy, effective for three years, was approved by Shareholders at the AGM held on 9 December 2014.

Implementation Report

Directors' Fees

The Board carried out a review of the level of Directors' fees during the year and concluded that the amounts should be maintained at the current level for the year ending 31 August 2017. There are no further fees, salaries, taxable benefits or any other items to disclose as the Company has no employees, Chief Executive or Executive Directors.

Company Performance

The Board has reviewed the Company's performance throughout the year under review. The following graph illustrates the total Shareholder share price return for a holding in the Ordinary shares as compared to the composite benchmark index weights as to 60% MSCI EM Latin America 10/40 index and 40% JP Morgan GBI-EM Global Diversified (Latin America carve out) (both in sterling terms) (figures rebased to 100 at inception on 16 August 2010). Given the Company's investment objective this is the most appropriate index against which to measure the Company's performance. Shareholders should note that the Company's portfolio is constructed without reference to any stockmarket index. It is likely, therefore, that there will be periods when the Company's performance will be quite unlike that of any index or benchmark and there can be no assurance that such divergence will be to the Company's advantage.

Statement of Voting at General Meeting

At the Company's last AGM, held on 10 December 2015, Shareholders approved (i) the Directors' Remuneration Report (other than the Directors' Remuneration Policy) and

(ii) the Directors' Remuneration Policy, in respect of the year ended 31 August 2015 and the following proxy votes were received on the resolutions:

Resolution	For* %	Against %	Withheld %
(2) Receive and Adopt Directors' Remuneration Report	92.8	6.8	0.4

* Including discretionary votes

Spend on Pay

As the Company has no employees, the Directors do not consider it appropriate to present a table comparing remuneration paid to employees with distributions to Shareholders. The total fees paid to Directors are shown below.

Fees Payable

The Directors who served in the year received the following fees:

Director	2016 £	2015 £
R Prosser (Chairman and highest paid Director)	26,500	26,500
J Arnold*	5,802	21,000
M Adams	18,500	18,500
G Baird**	20,316	18,500
M Gilbert	Nil	Nil
Total	71,118	84,500

* retired on 10 December 2015

** appointed Audit Committee Chairman on 10 December 2015

None of the Directors received any other salaries or taxable benefits from the Company during the year. Fees are pro-rated where a change takes place during a financial year. Of the fees disclosed above £26,500 (2015: £26,500) was payable to third parties in respect of making available the services of Directors. These fees were in respect of Mr Prosser (assigned to Estera Trust (Jersey) Limited).

Directors' Interests in the Company

The Directors are not required to hold shares in the Company.

The Directors (including connected persons) at 31 August 2016 and 31 August 2015 had no interest in the Ordinary share capital of the Company other than those interests, all of which are beneficial interests, shown in the table below.

	31 August 2016		31 August 2015	
	Ordinary shares	Sub. shares	Ordinary shares	Sub. shares

Annual Statement

On behalf of the Board I confirm that the above Report on Remuneration Policy and Remuneration Implementation summarises, as applicable, for the year ended 31 August 2016:

- the major decisions on Directors' remuneration;
- any substantial changes relating to Directors' remuneration made during the year; and
- the context in which the changes occurred and in which decisions have been taken.

For and on behalf of the Board

Richard Prosser

Chairman

Jersey JE2 3QB

Banco Bradesco

A man walks past a Banco Bradesco SA branch Sao Paulo, Brazil. Bradesco is one of the biggest banking and financial services companies in Brazil. Their products and services encompass banking operations such as loans and advances and deposit-taking, credit card issuance, purchasing consortiums, insurance, leasing, payment collection and processing, pension plans, asset management and brokerage services.

Financial Statements

Latin American equities delivered impressive returns over the year ended 31 August 2016, outpacing the broader emerging markets. Currency gains accounted for a sizeable part of overall returns, as sterling was battered by the UK's shock vote to leave the European Union, flattering most Latin American currencies. Latin American bond markets also delivered notable returns over the year under review, outpacing the broader emerging markets.

The Company's NAV total return was 46.2% for the year, ahead of the 38.8% rise in the composite benchmark's return. On a total return basis the Ordinary share price rose by 36.7% to 66.63p.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

The Companies (Jersey) Law 1991 requires the Directors to prepare financial statements for each financial period in accordance with any generally accepted accounting principles. The financial statements of the Company are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors should:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable;
- specify which generally accepted accounting principles have been adopted in their preparation;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- assess whether the Annual Report and financial statements, taken as a whole, is 'fair, balanced and understandable'.

The Directors are responsible for keeping accounting records which are sufficient to show and explain its transactions and are such as to disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements prepared by the Company comply with the requirements of the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for ensuring that the Company complies with the provisions of the Listing Rules and the Disclosure & Transparency Rules of the UK Listing Authority which, with regard to Corporate Governance, require the Company to disclose how it has applied the principles, and complied with the provisions, of the UK Corporate Governance Code applicable to the Company.

Declaration

The Directors listed on pages 24 and 25, being the persons responsible, hereby confirm to the best of their knowledge:

- that the financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the IASB and interpretations issued by the International Financial Reporting Interpretations Committee of the International Accounting Standards Board give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company;
- that in the opinion of the Directors, the Annual Report and financial statements taken as a whole, is fair, balanced and understandable and it provides the information necessary to assess the Company's performance, business model and strategy; and
- the Strategic Report, including the Chairman's Statement and the Investment Manager's Review, include a fair review of the development and performance of the business and the position of the Company together with a description of the principal risks and uncertainties that the Company faces.

For and on behalf of the Board

Richard Prosser

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Jersey governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent Auditors' Report to the Members of Aberdeen Latin American Income Fund Limited

Our opinion on the financial statements

In our opinion:

- Aberdeen Latin American Income Fund Limited's (the "Company") financial statements (the "financial statements") give a true and fair view of the state of the Company's affairs as at 31 August 2016 and of its profit for the year then ended;
- the financial statements have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs"); and
- the financial statements have been prepared in accordance with the requirements of the Companies (Jersey) Law 1991.

What we have audited

Aberdeen Latin American Income Fund Limited's financial statements comprise:

Statement of Comprehensive Income for the year ended 31 August 2016
Balance Sheet as at 31 August 2016
Statement of Changes in Equity for the year ended 31 August 2016
Cash Flow Statement for the year ended 31 August 2016
Statement of Cash Flows for the year ended 31 August 2016
Related notes 1 to 22 to the financial statements

The financial reporting framework that has been applied in their preparation is applicable law and IFRSs.

Overview of our audit approach

Risks of material misstatement	<ul style="list-style-type: none"> • Incomplete or inaccurate income recognition, including the occurrence of dividend income • Mispricing of investments due to the use of inappropriate pricing inputs <p>These two areas are considered to be significant risks, consistent with the 2016 audit strategy.</p>
Audit scope	<ul style="list-style-type: none"> • The audit team has audited all items that are material to the financial statements.
Materiality	<ul style="list-style-type: none"> • Overall materiality of £484,000 which represents 1% of the net assets (2015: £358,000).

Independent Auditors' Report to the Members of Aberdeen Latin American Income Fund Limited

Our assessment of risk of material misstatement

We identified the risks of material misstatement described below as those that had the greatest effect on our overall audit strategy, the allocation of resources in the audit and the direction of the efforts of the audit team. In addressing these risks, we have performed the procedures below which were designed in the context of the financial statements as a whole and, consequently, we do not express any opinion on these individual areas.

Risk	Our response to the risk	What we concluded to the Audit Committee
<p>Inaccurate or incomplete income recognition, including the occurrence of dividend income</p> <p>Income from investments £3.544m (2015: £3.170m)</p> <p>Refer to the Audit Committee Report (page 32); Accounting policies (page 51); and Note 4 of the Financial Statements</p> <p>Revenue comprises the dividend income and interest income generated by the investments held in listed securities, including dividends from the subsidiary undertaking which is treated as an investee entity in accordance with IFRS 10.</p> <p>Investment income is the most significant component of the Company's revenue profit for the year.</p> <p>Management may seek to overstate revenue in order to report a higher return to investors.</p>	<p>We walked through the revenue recognition process and understood the systems and controls implemented.</p> <p>We assessed whether the revenue recognition policies were in compliance with IFRS.</p> <p>We agreed samples of dividends received and receivable and of interest income entitlements to independent sources and bank statements.</p> <p>We validated the classification of special dividends as capital or revenue according to their circumstances</p> <p>We recalculated the interest income, on a sample basis, using the effective interest rate method.</p> <p>We validated dividends receivable from the investee entity to executed minutes.</p> <p>We validated the completeness of dividends recognised using independent sources.</p>	<p>We reported that there were no matters identified during our audit work to indicate that revenue is materially misstated.</p>

<p>Mispricing of investments due to the use of inappropriate pricing inputs</p> <p>Investments held at fair value through profit or loss £55.177m (2015: £43.565m)</p> <p>Refer to the Audit Committee Report (page 32); Accounting policies (page 51); and Notes 10, 16 and 20 of the Financial Statements</p> <p>The investments held by the Company and its subsidiary comprise a portfolio of equity and fixed interest income securities measured at fair value through profit or loss.</p> <p>The fair value is derived from unadjusted quoted bid prices in active markets, with the exception of inflation-linked bonds whose quoted prices are adjusted for indexation.</p> <p>The valuation of the Company's investments is the most significant component of the balance sheet and the most important driver of total return.</p> <p>Management may seek to overstate the valuation of investments to maximise reported performance and net asset value per share.</p>	<p>We walked through the valuation processes and understood the systems and controls implemented.</p> <p>We validated the prices used to value each security as at the balance sheet date, including those held by the subsidiary, to independent pricing sources including the market adjustments made to the inflation-linked bonds.</p>	<p>We reported that there were no matters identified during our audit work to indicate that the valuation of investments is materially misstated.</p>
---	--	---

The scope of our audit

- Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the Company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the Company and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed.

Our application of materiality

- We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

- We determined planning materiality for the Company to be £484,000 which is 1% of the net assets (2015: £358,000, 1% of net assets). This provided a basis for determining the nature, timing and extent of our risk assessment procedures, identifying

Independent Auditors' Report to the Members of Aberdeen Latin American Income Fund Limited continued

and assessing the risks of material misstatement and determining the nature, timing and extent of further audit procedures. We based our materiality calculation on net assets as we consider that to be the most important financial metric on which shareholders judge the performance of the Company.

- During the course of our audit, we reassessed initial materiality and noted no factors leading us to amend materiality levels from those originally determined at the audit planning stage.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

- On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgment was that overall performance materiality (i.e. our tolerance for misstatement in an individual account or balance) for the Company should be 75% of planning materiality, being £363,000 (2015: 75% of materiality, namely £269,000). We have set performance materiality at this percentage due to our past experience of the audit that indicates a lower risk of misstatements, both corrected and uncorrected, and limited identification of audit findings in previous periods.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

- We agreed with the audit committee that we would report all audit differences in excess of 5% of planning materiality, being £24,000 (2015: £17,000) as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.
- We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in the light of other relevant qualitative considerations in forming our opinion.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities set out on page 40, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors. This report is made solely to the Company's members, as a body, in accordance with Article 113A of the Companies (Jersey) Law 1991. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Matters on which we are required to report by exception

ISAs (UK and Ireland) reporting	<p>We are required to report to you if, in our opinion, financial and non-financial information in the annual report is:</p> <ul style="list-style-type: none"> • materially inconsistent with the information in the audited financial statements; or • apparently materially incorrect based on, or materially inconsistent with, our knowledge of the Company acquired in the course of performing our audit; or • otherwise misleading. <p>In particular, we are required to report whether we have identified any inconsistencies between our knowledge acquired in the course of performing the audit and the directors' statement that they consider the annual report and accounts taken as a whole is fair, balanced and understandable and provides the information necessary for shareholders to assess the entity's performance, business model and strategy; and whether the annual report appropriately addresses those matters that we communicated to the audit committee that we consider should have been disclosed.</p>	<p>We have no exceptions to report.</p>
Companies (Jersey) Law 1991 reporting	<p>We are required to report to you if, in our opinion:</p> <ul style="list-style-type: none"> • proper accounting records have not been kept by the Company, or proper returns adequate for our audit have not been received from branches not visited by us; or • the financial statements are not in agreement with the accounting records and returns; or • we have not received all the information and explanations we require for our audit. 	<p>We have no exceptions to report.</p>
Listing Rules review requirements	<p>We are required to review:</p> <ul style="list-style-type: none"> • the directors' statement in relation to going concern and longer-term viability, set out on pages 11 and 28; and, • the part of the Corporate Governance Statement relating to the company's compliance with the provisions of the UK Corporate Governance Code specified for our review. 	<p>We have no exceptions to report.</p>

Independent Auditors' Report to the Members of Aberdeen Latin American Income Fund Limited continued

Statement on the Directors' Assessment of the Principal Risks that Would Threaten the Solvency or Liquidity of the Entity

ISAs (UK and Ireland) reporting	<p>We are required to give a statement as to whether we have anything material to add or to draw attention to in relation to:</p> <ul style="list-style-type: none"> • the directors' confirmation in the annual report that they have carried out a robust assessment of the principal risks facing the entity, including those that would threaten its business model, future performance, solvency or liquidity; • the disclosures in the annual report that describe those risks and explain how they are being managed or mitigated; • the directors' statement in the financial statements about whether they considered it appropriate to adopt the going concern basis of accounting in preparing them, and their identification of any material uncertainties to the entity's ability to continue to do so over a period of at least twelve months from the date of approval of the financial statements; and • the directors' explanation in the annual report as to how they have assessed the prospects of the entity, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the entity will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions. 	We have nothing material to add or to draw attention to.

Notes to the Financial Statements For the year ended 31 August 2016

1. Principal activity

The Company is a closed-ended investment company incorporated in Jersey, and its shares are traded on the London Stock Exchange and are listed in the premium segment of the Financial Conduct Authority's Official List. The Company's principal activity is investing in Latin American securities.

The principal activity of its Delaware incorporated subsidiary, Aberdeen Latin American Income Fund LLC ("Subsidiary") is similar in all relevant respects to that of its Jersey parent.

2. Accounting policies

(a) Basis of preparation

The accounting policies which follow set out those policies which apply in preparing the financial statements for the year ended 31 August 2016.

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by International Accounting Standards Board (IASB). The financial statements have been prepared on a historical-cost basis, except for financial assets and financial liabilities held at fair value through profit or loss.

The Company's financial statements are presented in sterling, which is also the functional currency as it is the currency in which shares are issued and expenses are generally paid. All values are rounded to the nearest thousand pounds (£'000) except when otherwise indicated.

Where presentational guidance set out in the Statement of Recommended Practice ("SORP"): 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' issued by the Association of Investment Companies ("AIC"), is consistent with the requirements of IFRS, the Directors have sought to prepare the financial statements on a basis compliant with the recommendations of the SORP issued in November 2014.

Significant judgements

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates which requires management to exercise its judgement in the process of applying the accounting policies.

Assessment as investment entity

Entities which meet the definition of an investment entity are required to fair value subsidiaries through profit or loss rather than consolidate them. An investment entity meets the definition of an investment entity if it satisfies the following three criteria:

- (i) an entity obtains funds from one or more investors for the purpose of providing those investors with investment services; the Company provides investment services and has several investors who pool funds to gain access to these services and investment opportunities which they might not be able to as individuals.
- (ii) an entity commits to its investors that its business purpose is to invest solely for capital appreciation, investment income, or both; the Company's investment objective is to provide Ordinary Shareholders with a total return, with an above average yield, primarily through investing in Latin American securities.
- (iii) an entity measures and evaluates the performance of substantially all of its investments on a fair value basis; the Company has elected to measure and evaluate the performance of all of its investments on a fair value basis. The fair value basis is used to present the Company's performance in its communication with the market and the primary measurement attribute to evaluate performance of all of its investments and to make investment decisions.

The Company meets the definition of an investment entity, and, therefore, all investments in subsidiaries are recorded at fair value through profit or loss.

New and amended standards and interpretations

There were no new or amended standards adopted by the Company during the year.

Standards issued but not yet effective

At the date of authorisation of these financial statements, the following Standards and Interpretations were in issue but not yet effective:

- IFRS Annual Improvements 2012 to 2014 (effective 1 July 2016)
- IFRS 9 Financial Instruments (effective 1 January 2018, revised, early adoption permitted)
- IFRS 15 Revenue from contracts with customers (effective 1 January 2018)

The Company intends to adopt the standards in the reporting period when they become effective and will carry out an assessment of their impact on the Company's financial results, revised presentations to the Primary Financial Statements and additional disclosures.

(b) Income

Dividend income from equity investments is recognised on the ex-dividend date. Dividend income from equity investments where no ex-dividend date is quoted are brought into account when the Company's right to receive payment is established. Where the Company has elected to receive dividends in the form of additional shares rather than in cash, the amount of the cash dividend foregone is recognised as income. Special dividends are credited to capital or revenue according to their circumstances.

The fixed returns on debt instruments are recognised using the effective interest rate method.

(c) Expenses and interest payable

All expenses, with the exception of interest, which is recognised using the effective interest method, are accounted for on an accruals basis. Expenses are charged to the revenue column of the Statement of Comprehensive Income except as follows:

- costs incidental to the issue of new shares as defined in the prospectus are charged to capital;
- expenses resulting from the acquisition or disposal of an investment are charged to the capital column of the Statement of Comprehensive Income; and
- expenses are charged to the capital column of the Statement of Comprehensive Income where a connection with the maintenance or enhancement of the value of the investments can be demonstrated. The Company charges 60% of investment management fees and finance costs to capital, in accordance with the Board's estimate of expected long-term return in the form of capital gains and income respectively from the investment portfolio of the Company.

(d) Taxation

Profits arising in the Company for the year ended 31 August 2016 will be subject to Jersey income tax at the rate of 0% (2015 – 0%).

Investment income and capital gains are subject to withholding tax deducted at the source of the income. The Company presents the withholding tax separately from the gross investment income in the Statement of Comprehensive Income under taxation.

(e) Investments held at fair value through profit or loss

Purchases of investments are recognised on a trade-date basis and designated upon initial recognition as held at fair value through profit or loss. All investments are considered to form part of a group of financial assets and subsequently measured on a fair value basis, in accordance with the Company's documented investment strategy, and information about the Company is provided internally on that basis. These investments also include inflation-linked bonds which are considered to be compound financial instruments. Proceeds are measured at fair value, which is regarded as the proceeds of sale less any transaction costs. Sales of investments are also recognised on a trade date basis.

Changes in the value of investments held at fair value through profit or loss, gains and losses on disposal and related transaction costs are recognised in the Statement of Comprehensive Income.

(f) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value is derived from unadjusted quoted bid prices in active markets, with the exception of inflation-linked bonds whose quoted bid prices are adjusted for indexation arising from the movement of the consumer prices index for the relevant country of issue of the bond. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles. An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(g) Cash and cash equivalents

Cash comprises cash at banks and short-term deposits.

(h) Other receivables and payables

Other receivables do not carry any interest and are short-term in nature and are accordingly stated at their recoverable amount. Other payables are non interest bearing and are stated at their payable amount.

(i) Nature and purpose of reserves

Capital reserve

This reserve reflects any gains or losses on investments realised in the period along with any movement in the fair value of investments held that have been recognised in the Statement of Comprehensive Income. These include gains and losses from foreign currency exchange differences.

Additionally, expenses, including finance costs, are charged to this reserve in accordance with (c) above.

When the Company purchases its Ordinary shares to be held in treasury, the amount of the consideration paid, which includes directly attributable costs, is net of any tax effect, and is recognised as a deduction from the capital reserve. Should these shares be sold subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to or from the capital reserve.

Revenue reserve

This reserve reflects all income and costs which are recognised in the revenue column of the Statement of Comprehensive Income less dividends which have been paid.

(j) Foreign currency

Monetary assets and liabilities are converted into sterling at the rate of exchange ruling at the Balance Sheet date. Transactions during the period involving foreign currencies are converted at the rate of exchange ruling at the transaction date. Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is included as a currency gain or loss.

(k) Bank loans

Monies borrowed to finance the investment objectives of the Company are stated at the amount of the net proceeds immediately after the issue plus cumulative finance costs less cumulative payments made in respect of the debt. The finance cost of such borrowings is allocated to years over the term of the debt at a constant rate on the carrying amount and is charged 40% to revenue and 60% to capital reserves to reflect the Company's investment policy and estimated prospective income and capital growth.

Borrowings are held at amortised cost using the effective interest rate method.

(l) Intercompany balances

The net income generated in the Subsidiary is transferred to the Company via an intercompany balance on a periodic basis.

Notes to the Financial Statements *continued*

(m) Derivative financial instruments

The Company uses forward foreign exchange contracts to manage currency risk arising from investment activity.

Derivatives are measured at fair value calculated by reference to forward exchange rates for contracts with similar maturity profiles.

Changes in the fair value of derivatives are recognised in the Statement of Comprehensive Income as revenue or capital depending on their nature.

3. Segmental reporting

The Company is engaged in a single segment of business. For management purposes, the Company is organised into one main operating segment, which invests in equity securities, debt instruments and related derivatives. All of the Company's activities are interrelated, and each activity is dependent on the others. Accordingly, all significant operating decisions are based on the Company as one segment.

The following table analyses the Company's income, including income of the Subsidiary on a look-through basis, by geographical location. The basis for attributing the income is the place of incorporation of the instrument's investment, however, where the Company invests in ADR designated securities the underlying geographic location is considered to be the basis.

	2016 £'000	2015 £'000
Argentina	15	19
Brazil	1,691	1,673
Chile	54	66
Columbia	331	257
Mexico	426	445
Peru	139	129
Uruguay	888	581
	3,544	3,170

The Company's income by investment type is derived 15% (2015 – 26%) from equities, 85% (2015 – 74%) from bonds.

	2016 £'000	2015 £'000
4. Income from investments		
Dividend income	356	490
Fixed interest income	1,654	1,284
Income from Subsidiary	1,534	1,396
	3,544	3,170

The Company receives income from its Subsidiary and there are no significant restrictions on the transfer of funds to or from the Subsidiary.

5. Investment management fee

The Company has an agreement with APWML for the provision of management services. Portfolio management services have been delegated by APWML to AAM.

The management fee is based on an annual rate of 1% of the NAV of the Company, valued monthly. The agreement is terminable on one year's notice. The balance due to APWML at the year end was £47,000 (2015 – £37,000). Investment management fees are charged 40% to revenue and 60% to capital.

	2016	2015
	£'000	£'000
6. Other operating expenses		
Directors' fees	71	85
Promotional activities	32	48
Auditor's remuneration:		
– fees payable for the audit of the annual accounts	30	29
Legal and advisory fees	14	–
Custodian and overseas agents' charges	61	69
Broker fees	30	30
Stock exchange fees	17	13
Registrar's fees	17	21
Printing	15	19
Other	35	28
	322	342

The Company has an agreement with AAM for the provision of promotional activities. The total fees incurred under the agreement during the year were £32,000 (2015 – £48,000), of which £5,000 (2015 – £8,000) was due to AAM PLC at the year end.

The Company's management agreement with APWML provides for the provision of company secretarial and administration services. This agreement has been sub-delegated to AAM which is entitled to an annual fee of £114,000 which is set to increase annually in line with any increase in the UK retail prices index, however, APWML waived its entitlement to a fee during the year to 31 August 2016 (2015 – same). A balance of £nil was due to the Company by APWML at the year end (2015 – £95,000 due to the Company from APWML).

	2016			2015		
	Revenue	Capital	Total	Revenue	Capital	Total
	£'000	£'000	£'000	£'000	£'000	£'000
7. Finance costs						
Interest on bank loans	40	60	100	42	64	106

	2016	2015
	£'000	£'000
8. Dividends on equity shares		
Distributions to equity holders in the period:		
Fourth interim dividend for 2015 – 1.25p (2014 – 1.25p) per Ordinary share	812	820
First interim dividend for 2016 – 0.875p (2015 – 1.00p) per Ordinary share	567	656
Second interim dividend for 2016 – 0.875p (2015 – 1.00p) per Ordinary share	564	655
Third interim dividend for 2016 – 0.875p (2015 – 1.00p) per Ordinary share	562	651
	2,505	2,782

Notes to the Financial Statements *continued*

The fourth interim dividend for the year of 0.875p per Ordinary share has not been included as a liability in these financial statements as it was announced and paid after 31 August 2016.

9. Earnings per Ordinary share

The basic earnings or loss per Ordinary share is based on the profit for the year of £15,537,000 (2015 – loss of £21,743,000) and on 64,626,472 (2015 – 65,451,577) Ordinary shares, being the weighted average number of Ordinary shares in issue during the year.

The basic earnings or loss per Ordinary share detailed above can be further analysed between revenue return and capital return as follows:

Basic	2016			2015		
	Revenue	Capital	Total	Revenue	Capital	Total
Profit/(loss) (£'000)	2,974	12,563	15,537	2,518	(24,261)	(21,743)
Weighted average number of Ordinary shares in issue ('000)			64,626			65,452
Return per Ordinary share (pence)	4.60	19.44	24.04	3.85	(37.07)	(33.22)

10. Investments held at fair value through profit or loss

(a) Company	Year ended 31 August 2016 £'000	Year ended 31 August 2015 £'000
Quoted equities	13,165	10,348
Quoted bonds	18,540	16,476
Investment in Subsidiary	23,472	16,741
Closing valuation	55,177	43,565

Investment in Subsidiary

The Company holds 100% of the share capital of its Subsidiary. The Company meets the definition of an investment entity, therefore it does not consolidate its Subsidiary but recognises it as an investment at fair value through profit or loss. The Company receives income from its Subsidiary and there are no significant restrictions on the transfer of funds to or from the Subsidiary.

(b) Transaction costs

During the year, expenses were incurred in acquiring or disposing of investments classified as fair value through profit or loss. The total costs were as follows:

	Year ended 31 August 2016 £'000	Year ended 31 August 2015 £'000
Purchases	4	3
Sales	4	6
	8	9

	2016	2015
	£'000	£'000
11. Other receivables		
Accrued income	332	278
Prepayments	6	108
	338	386

12. Bank loan

The Company has a £10 million (2015 – £10 million) unsecured revolving multi currency loan facility with Scotiabank Europe plc. At the year end £7,500,000 was drawn down (2015 – US\$13,300,000, equivalent to £8,648,000) under the facility, fixed to 19 September 2016 at an all-in rate of 1.23238%.

On 19 September 2016 £6,500,000 was drawn down under this facility and fixed to 19 October 2016 at an all-in rate of 1.22294%.

Under the terms of the loan facilities the Borrower must not permit adjusted NAV coverage to be less than 4.00 to 1.00. Adjusted NAV is defined as total net assets less, inter alia, the aggregate of all excluded assets, excluded assets being, without double counting, the value of any unquoted assets, all investments issued by a single issuer in excess of 15% of total NAV, all Brazilian and Mexican bonds in excess of 25%, any MSCI Industry category in excess of 25% and cash, and any shortfall in cash, equities and investment Grade bonds below 70%.

The Directors are of the opinion that there is no significant difference between the carrying value and fair value of the bank loan due to its short term nature.

Stated capital	66,572,824	65,936	76,993,810	65,936

The Company's Ordinary shares have no par value. The number of Ordinary shares authorised for issue is unlimited.

During the year ended 31 August 2016, 870,000 (2015 – 560,000) Ordinary shares were bought back at a total cost of £441,000 (2015 – £332,000) including expenses. All of these shares were placed in treasury (2015 – same). Shares held in treasury consisting of 2,420,000 (2015 – 1,550,000) Ordinary shares represent 3.64% (2015 – 2.33%) of the Company's total issued share capital at 31 August 2016.

In August 2010, 52,106,185 Ordinary shares were allotted and issued to investors at a price of 100p per Ordinary share. In addition 5,210,618 Subscription shares were issued on the basis of 1 Subscription share for every 10 Ordinary shares. Under the terms of the Aberdeen subscription share agreement, Aberdeen was allotted and issued a further 5,210,618 Subscription shares, which were fully paid at a price of £0.105 per Subscription share. Expenses associated with the issue amounted to £1,138,000 and these costs were deducted from the proceeds of the issue.

The Ordinary shares are entitled to all of the capital growth in the Company's assets and to all the income from the Company that is resolved to be distributed.

31 December 2015 was the final conversion date for all remaining unexercised Subscription shares. In accordance with the terms and conditions of issue, all of the remaining Subscription shares lapsed, were converted to deferred shares and were subsequently redeemed at nominal consideration on 15 January 2016.

	2016	2015
	£'000	£'000
14. Capital reserve		
At beginning of year	(30,722)	(6,129)

Purchase of own shares to be held in treasury	(441)	(332)
At end of year	(18,754)	(30,722)

15. Net asset value per Ordinary share

The basic net asset value per Ordinary share is based on a net asset value of £48,463,000 (2015 – £35,872,000) and on 64,152,824 (2015 – 65,022,824) Ordinary shares, being the number of Ordinary shares issued and outstanding at the year end.

16. Risk management policies and procedures

The Company, and through its Subsidiary, invests in equities and sovereign bonds for the long term so as to achieve its objective as stated on page 3. In pursuing its investment objective, the Company is exposed to a variety of financial risks that could result in a reduction in the Company's net assets and a reduction in the revenue available for distribution by way of dividends.

These financial risks are market risk (comprising market price risk, currency risk and interest rate risk), liquidity risk and credit risk, and the Directors' approach to the management of these risks, are set out below. The Board of Directors is responsible for the Company's risk management. The overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

The Board determines the objectives, policies and processes for managing the risks that are set out below, under the relevant risk category and relies upon Aberdeen's system of internal controls. The policies for the management of each risk are unchanged from the previous accounting period.

(a) Market risk

The fair value of a financial instrument held by the Company and its Subsidiary may fluctuate due to changes in market prices. Market risk comprises – market price risk (see note 16(b)), currency risk (see note 16(c)) and interest rate risk (see note 16(d)). The Investment Manager assesses the exposure to market risk when making each investment decision, and monitors the overall level of market risk on the whole of the investment portfolio on an ongoing basis.

(b) Market price risk

Market price risks (i.e. changes in market prices other than those arising from interest rate risk or currency risk) may affect the value of the quoted investments.

Management of the risk

The Board of Directors monitors the risks inherent in the investment portfolio by ensuring full and timely access to relevant information from the Investment Manager. The Board meets regularly and at each meeting reviews investment performance. The Board monitors the Investment Manager's compliance with the Company's objectives, and is directly responsible for oversight of the investment strategy and asset allocation.

Concentration of exposure to market price risk

A geographical analysis of the Company's and its Subsidiary's combined investment portfolio is shown on pages 18 to 22. This shows the significant amounts invested in Argentina, Brazil, Chile, Colombia, Mexico, and Peru. Accordingly, there is a concentration of exposure to those countries, though it is recognised that an investment's country of domicile or of listing does not necessarily equate to its exposure to the economic conditions in that country.

Market price sensitivity

The following table illustrates the sensitivity of the return after taxation for the year and the equity to an increase or decrease of 10% (2015 – 10%) in the fair value of the Company's and its Subsidiary's investments. This level of change is considered to be reasonably possible based on observation of past and current market conditions. The sensitivity analysis is based on the Company's and its Subsidiary's investments at each balance sheet date and the investment management fees for the year ended 31 August 2016, with all other variables held constant.

Notes to the Financial Statements *continued*

	2016 Increase in fair value £'000	2016 Decrease in fair value £'000	2015 Increase in fair value £'000	2015 Decrease in fair value £'000
Statement of Comprehensive Income – return after tax				
Revenue return	(22)	22	(17)	17
Capital return	5,443	(5,443)	4,289	(4,289)
Impact on total return after tax for the year and net assets	5,421	(5,421)	4,272	(4,272)

(c) Currency risk

Most of the Company's and its Subsidiary's assets, liabilities and income are denominated in currencies other than sterling (the Company's functional currency, and in which it reports its results). As a result, movements in exchange rates may affect the sterling value of those items.

Management of the risk

The Investment Manager manages the Company's exposure to foreign currencies and reports to the Board on a regular basis.

The Investment Manager also manages the risk to the Company and its Subsidiary of the foreign currency exposure by considering the effect on the Company's NAV and income of a movement in the exchange rates to which the Company's and Subsidiary's assets, liabilities, income and expenses and those of its Subsidiary are exposed.

Income denominated in foreign currencies is converted into sterling on receipt. The Company and its Subsidiary does not use financial instruments to mitigate currency exposure in the period between the time that income is included in the financial statements and its receipt.

Foreign currency exposure

The table below shows, by currency, the split of the Company and Subsidiary's non-sterling monetary assets and investments that are denominated in currencies other than sterling. The exposure is shown on a look through basis.

2016	ARS £'000	BRL £'000	CLP £'000	COP £'000	MXN £'000	PEN £'000	UYU £'000	USD £'000
Debtors (due from brokers, dividends and other receivables)	–	281	–	70	90	76	136	29
Cash	–	65	–	–	20	–	–	86
Creditors (due to brokers, accruals and other creditors)	–	–	–	–	(20)	–	–	–
Total foreign currency exposure on net monetary items	–	346	–	70	90	76	136	115
Investments at fair value through profit or loss	523	27,582	1,676	5,204	8,374	2,159	6,053	3,185
Total net foreign currency exposure	523	27,928	1,676	5,274	8,464	2,235	6,189	3,300

	ARS	BRL	CLP	COP	MXN	PEN	UYU	USD
2015	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Debtors (due from brokers, dividends and other receivables)	–	276	5	56	75	8	126	2
Cash	–	15	–	–	7	–	–	555
Creditors (due to brokers, accruals and other creditors)	–	–	–	–	(163)	–	–	(8,651)
Total foreign currency exposure on net monetary items	–	291	5	56	(81)	8	126	(8,094)
Investments at fair value through profit or loss	475	19,495	1,744	4,299	9,427	2,148	5,558	–
Total net foreign currency exposure	475	19,786	1,749	4,355	9,346	2,156	5,684	(8,094)

Foreign currency sensitivity

The sensitivity of the total return after tax for the year and the net assets in regard to the movements in the Company's and its Subsidiary's foreign currency financial assets and financial liabilities and the exchange rates for the £/Argentine Peso (ARS), £/Brazilian Real (BRL), £/Chilean Peso (CLP), £/Colombian Peso (COP), £/Mexican Peso (MXN), £/Peruvian Nuevo Sol (PEN), £/Uruguayan Peso (UYU) and £/US Dollar USD) are set out below:

It assumes the following changes in exchange rates:

£/Argentine Peso +/- 123% (2015 +/- 94%) (maximum downside risk 100%)

£/Brazilian Real +/- 15% (2015 +/- 74%)

£/Chilean Peso +/- 13% (2015 +/- 40%)

£/Columbian Peso +/- 29% (2015 +/- 64%)

£/Mexican Peso +/- 20% (2015 +/- 23%)

£/Peruvian Nuevo Sol +/- 2% (2015 +/- 20%)

£/Uruguayan Peso +/- 8% (2015 +/- 28%)

£/US Dollar +/- 15% (2015 +/- 3%)

These percentages have been determined based on the average market volatility in exchange rates in the previous 3 years and using the Company's and its Subsidiary's foreign currency financial assets and financial liabilities held at each balance sheet date.

For 2016, if sterling had strengthened against the currencies shown, this would have had the following effect, with a weakening of sterling having an equal and opposite effect:

	ARS	BRL	CLP	COP	MXN	PEN	UYU	USD
2016	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Statement of Comprehensive Income – return after tax								
Revenue return	–	(40)	–	(20)	(18)	–	(10)	4
Capital return	(523)	(4,189)	(218)	(1,530)	(1,693)	(44)	(494)	495
Impact on total return after tax for the year and net assets	(523)	(4,229)	(218)	(1,550)	(1,711)	(44)	(504)	499

For 2015, if sterling had strengthened against the currencies shown, this would have had the following effect, with a weakening of sterling having an equal and opposite effect:

Notes to the Financial Statements *continued*

2015	ARS £'000	BRL £'000	CLP £'000	COP £'000	MXN £'000	PEN £'000	UYU £'000	USD £'000
Statement of Comprehensive Income – return after tax								
Revenue return	(18)	(1,239)	(26)	(165)	(102)	(26)	(163)	–
Capital return	(447)	(14,642)	(699)	(2,788)	(2,149)	(431)	(1,592)	242
Impact on total return after tax for the year and net assets	(465)	(15,881)	(725)	(2,953)	(2,251)	(457)	(1,755)	242

The above sensitivity analyses are not representative of the year as a whole, since the level of exposure changes frequently.

Foreign exchange contracts

The following forward contracts were outstanding at the Balance Sheet date:

Date of contract	Buy Currency	Sell Currency	Settlement date	Amount '000	Contracted rate	Unrealised gain/(loss) 31 August 2016 £'000
08 July 2016	MXN	GBP	17 October 2016	3,068	24.8467	(20)
12 July 2016	USD	GBP	17 October 2016	114	1.3111	1
21 July 2016	USD	GBP	17 October 2016	272	1.3111	2
08 July 2016	GBP	USD	17 October 2016	3,523	1.3111	37
22 August 2016	GBP	USD	17 October 2016	404	1.3111	(1)
17 August 2016	USD	BRL	23 November 2016	1,525	1.3120	–
17 August 2016	USD	PEN	23 November 2016	2,195	1.3120	46

Date of contract	Buy Currency	Sell Currency	Settlement date	Amount '000	Contracted rate	Unrealised gain/(loss) 31 August 2015 £'000
10 July 2015	MXN	GBP	16 October 2015	3,133	24.5443	(163)
10 July 2015	GBP	USD	16 October 2015	4,851	1.5533	(32)
21 July 2015	USD	GBP	16 October 2015	245	1.5537	2
13 August 2015	GBP	USD	16 October 2015	27	1.5614	–
19 August 2015	BRL	USD	24 November 2015	7,062	3.5685	61
19 August 2015	PEN	USD	24 November 2015	7,578	3.3270	1
21 August 2015	GBP	USD	16 October 2015	120	1.5688	(1)

The fair value of forward exchange contracts is based on forward exchange rates at the Balance Sheet date.

(d) Interest rate risk

Interest rate risk is the risk that arises from fluctuating interest rates. Interest rate movements may affect:

- the fair value of the investments in fixed interest rate securities;
- the level of income receivable on cash deposits;
- interest payable on the Company's variable interest rate borrowings.

The interest rate risk applicable to a bond is dependent on the sensitivity of its price to interest rate changes in the market. The sensitivity depends on the bond's time to maturity, and the coupon rate of the bond.

Management of the risk

The possible effects on fair value and cash flows that could arise as a result of changes in interest rates are taken into account when making investment decisions.

Financial assets

The Company and its Subsidiary hold fixed rate government bonds with prices determined by market perception as to the appropriate level of yields given the economic background. Key determinants include economic growth prospects, inflation, the relevant government's fiscal position, short-term interest rates and international market comparisons. The Investment Manager takes all these factors into account when making investment decisions. Each quarter the Board reviews the decisions made by the Investment Manager and receives reports on each market in which the Company and its Subsidiary invest together with economic updates.

Returns from bonds are fixed at the time of purchase, as the fixed coupon payments are known, as are the final redemption proceeds. This means that if a bond is held until its redemption date, the total return achieved is unaltered from its purchase date. However, over the life of a bond the market price at any given time will depend on the market environment at that time. Therefore, a bond sold before its redemption date is likely to have a different price to its purchase price and a profit or loss may be incurred.

Financial liabilities

The Company primarily finances its operations through use of equity and bank borrowings.

The Company has a revolving multi-currency facility, details of which are disclosed in note 12.

The Board actively monitors its bank borrowings. A decision on whether to roll over its existing borrowings will be made prior to their maturity dates, taking into account the Company's policy of not having any fixed, long-term borrowings.

The possible effects on fair value and cash flows that could arise as a result of changes in interest rates are taken into account when making investment and borrowing decisions.

Interest rate exposure

The exposure at 31 August of financial assets and financial liabilities to interest rate risk is shown by reference to floating interest rates – when the interest rate is due to be re-set.

	2016		2015	
	Within one year	Total	Within one year	Total
	£'000	£'000	£'000	£'000
Exposure to floating interest rates				
Cash	524	524	838	838
Borrowings under loan facility	(7,500)	(7,500)	(8,648)	(8,648)
Total net exposure to interest rates	(6,976)	(6,976)	(7,600)	(7,600)

The Company does not have any fixed interest rate exposure to cash or bank borrowings at 31 August 2016 (2015 – nil). Interest receivable and finance costs are at the following rates:

- interest received on cash balances, or paid on bank overdrafts, is at a margin below LIBOR or its foreign currency equivalent (2015 – same).

Notes to the Financial Statements *continued*

- interest paid on borrowings under the loan facility was at a margin above LIBOR. The weighted average interest rate of these at 31 August 2016 was 1.23238%.

Interest rate sensitivity

A sensitivity analysis demonstrates the sensitivity of the Company's results for the year to a reasonably possible change in interest rates, with all other variables held constant.

The sensitivity of the profit/(loss) for the year is the effect of the assumed change in interest rates on:

- the net interest income for the year, based on the floating rate financial assets held at the Balance Sheet date; and
- changes in fair value of investments for the year, based on revaluing fixed rate financial assets and liabilities at the Balance Sheet date.

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the Company's net interest for the year ended 31 August 2016 would decrease/increase by £35,000 (2015 – £39,000). This is attributable to the Company's exposure to interest rates on its floating rate cash balances and bank loan.

If interest rates had been 50 basis points higher and all other variables were held constant, a change in fair value of the Company's fixed rate financial assets at the year ended 31 August 2016 would result in a decrease of £742,000 (2015 – £610,000). If interest rates had been 50 basis points lower and all other variables were held constant, a change in fair value of the Company's fixed rate financial assets at the year ended 31 August 2016 would result in an increase of £774,000 (2015 – £637,000).

(e) Liquidity risk

This is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities.

Management of the risk

The majority of the Company's and its Subsidiary's assets are investments in quoted bonds and equities that are readily realisable. The Company's level of borrowings is subject to regular review.

The Company's investment policy allows the Investment Manager to determine the maximum amount of the Company's resources that should be invested in any one company.

Liquidity risk exposure

The remaining contractual maturities of the financial liabilities at 31 August 2016, based on the earliest date on which payment can be required are as follows:

	Due within 3 months £'000	Due between 3 months and 1 year £'000	Due after 1 year £'000	Total £'000
31 August 2016				
Creditors: amounts falling due within one year				
Borrowings under the loan facility (including interest)	(7,504)	–	–	(7,504)
Amounts due on forward foreign currency contracts	(21)	–	–	(21)
Amounts due to brokers and accruals	(137)	–	–	(137)
	(7,662)	–	–	(7,662)

	Due within 3 months £'000	Due between 3 months and 1 year £'000	Due after 1 year £'000	Total £'000
31 August 2015				
Creditors: amounts falling due within one year				
Borrowings under the loan facility (including interest)	(8,650)	–	–	(8,650)
Amounts due on forward foreign currency contracts	(196)	–	–	(196)
Amounts due to brokers and accruals	(135)	–	–	(135)
	(8,981)	–	–	(8,981)

(f) Credit risk

The failure of the counterparty to a transaction to discharge its obligations under that transaction could result in the Company or its Subsidiary suffering a loss.

Management of the risk

Investment transactions are carried out with a number of brokers, whose credit-standing is reviewed regularly by Aberdeen, and limits are set on the amount that may be due from any one broker; the risk of counterparty exposure due to failed trades causing a loss to the Company or its Subsidiary is mitigated by the review of failed trade reports on a daily basis. In addition, the administrator carries out both cash and stock reconciliations to the custodians' records on a daily basis to ensure discrepancies are detected on a timely basis.

Cash is held only with reputable banks with high quality external credit ratings. None of the Company's or its Subsidiary's financial assets have been pledged as collateral.

Credit risk exposure

In summary, compared to the amounts included in the Balance Sheet, the maximum exposure to credit risk at 31 August was as follows:

	2016		2015	
	Balance Sheet £'000	Maximum exposure £'000	Balance Sheet £'000	Maximum exposure £'000
Non-current assets				
Bonds at fair value through profit or loss ^A	32,102	32,102	26,411	26,411
Current assets				
Cash	524	524	838	838
Other receivables	338	338	386	386
Forward foreign currency contracts	86	86	64	64
	33,050	33,050	27,699	27,699

^AIncludes quoted bonds held by the Company and its Subsidiary on a look-through basis. For more detail on these bonds refer to page 20.

None of the Group's financial assets are secured by collateral or other credit enhancements and none are past their due date or impaired.

Notes to the Financial Statements *continued*

Credit ratings

The table below provides a credit rating profile using Standard and Poors credit ratings for the bond portfolio at 31 August 2016 and 31 August 2015:

	2016	2015
	£'000	£'000
A	5,556	5,198
A–	2,159	1,478
BB	13,563	–
BBB	10,824	9,333
BBB+	–	9,933
Non-rated	–	469
	32,102	26,411

At 31 August 2015 the Standard and Poors credit ratings agency did not provide a rating for the Peruvian bonds held by the Company and were accordingly categorised as non-rated in the table above. As at 31 August 2016 they now attach an A- credit rating to the Peruvian bonds held by the Company.

17. Capital management policies and procedures

The Company's capital management objectives are:

- to ensure that it will be able to continue as a going concern; and
- to maximise the income and capital return to its Equity Shareholders through equity capital and debt.

The Company's capital at 31 August 2016 comprises its equity capital and reserves that are shown in the Balance Sheet at a total of £48,463,000 (2015 – £35,872,000). As at 31 August 2016 gross debt as a percentage of net assets stood at 15.5% (2015 – 24.1%).

The Board, with the assistance of Aberdeen, monitors and reviews the broad structure of the Company's capital on an ongoing basis. This review includes:

- the planned level of gearing, which takes account of Aberdeen's views on the market;
- the need to buy back Ordinary shares for cancellation or treasury, which takes account of the difference between the net asset value per share and the share price (ie. the level of share price discount);
- the need for new issues of Ordinary shares, including issues from treasury; and
- the extent to which distributions from reserves may be made.

The Company's objectives, policies and processes for managing capital are unchanged from the preceding accounting period.

18. Related party transactions

Fees payable during the year to the Directors are disclosed within the Directors' Remuneration Report on pages 35 to 37 and in note 6 on page 55.

Mr R Prosser is a group director of Estera Group (formerly known as Appleby Group) and a director of its wholly-owned trust company, Estera Trust (Jersey) Limited (formerly known as Appleby Trust (Jersey) Limited).

Mr M J Gilbert is a director of Aberdeen Asset Management PLC, of which APWML is a subsidiary. Management, promotional activities and secretarial, administration and custody services are provided by APWML with details of transactions during the year and balances outstanding at the year end disclosed in notes 5 and 6. Mr Gilbert does not draw a fee for providing his services as a Director of the Company.

Under its management agreement with the Company, APWML is entitled to receive both a management fee and a company secretarial and administration fee. APWML has agreed to waive its company secretarial and administration fee of £114,000, for the year ended 31 August 2016 (2015 – waived). This waiver constitutes a smaller related party transaction for the purpose of LR 11.1.10 R of the Financial Conduct Authority's Listing Rules. The Board has agreed to reinstate the company secretarial and administration fee at the level of £114,000 for the year ending 31 August 2017.

The Company owns 100% of the share capital of its Subsidiary. During the year net revenue of £1,534,000 (2015 – £1,396,000) and capital gains of £7,498,000 (2015 – losses of £9,741,000) were generated by the Subsidiary and balances outstanding at the year end were £21,757,000 (2015 – £24,058,000).

The Company had in place a Subscription share and lock-in agreement with APWML dated 14 July 2010 which provided for the purchase by APWML of 5,210,618 Subscription shares issued by the Company on the basis of 1 Subscription share for every 10 Ordinary shares, which were allotted and issued in August 2010. The rights attached to the Subscriptions shares expired on 31 December 2015.

19. Controlling party

The Company has no immediate or ultimate controlling party.

20. Fair value hierarchy

IFRS 13 requires an entity to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (ie. as prices) or indirectly (ie. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial assets and financial liabilities are either carried in the balance sheet at their fair value (investments) or the balance sheet amount is a reasonable approximation of fair value (due from brokers, dividends and interest receivable, due to brokers, accruals, cash at bank and amounts due under the loan facility).

The financial assets and liabilities measured at fair value in the Balance Sheet grouped into the fair value hierarchy at 31 August 2016 as follows:

	Note	Level 1 £'000	Level 2 £'000	Total £'000
Financial assets/(liabilities) at fair value through profit or loss				
Quoted equities	a)	13,165	–	13,165
Quoted bonds	b)	–	18,540	18,540
Investment in Subsidiary	c)	–	23,472	23,472
		13,165	42,012	55,177
Forward foreign currency contracts	d)	–	86	86
Forward foreign currency contracts	d)	–	(21)	(21)
Net fair value		13,165	42,077	55,242

Notes to the Financial Statements *continued*

As at 31 August 2015	Note	Level 1 £'000	Level 2 £'000	Total £'000
Financial assets/(liabilities) at fair value through profit or loss				
Quoted equities	a)	10,348	–	10,348
Quoted bonds	b)	–	16,476	16,476
Investment in Subsidiary	c)	–	16,741	16,741
		10,348	33,217	43,565
Forward foreign currency contracts	d)	–	64	64
Forward foreign currency contracts	d)	–	(196)	(196)
Net fair value		10,348	33,085	43,433

There were no assets for which significant unobservable inputs (Level 3) were used in determining fair value during the years ended 31 August 2016 and 31 August 2015. For the years ended 31 August 2016 and 31 August 2015 there were no transfers between any levels.

a) Quoted equities

The fair value of the Company's investments in quoted equities has been determined by reference to their quoted bid prices at the reporting date. Quoted equities included in Fair Value Level 1 are actively traded on recognised stock exchanges.

b) Quoted bonds

The fair value of the Company's investments in Level 1 quoted bonds has been determined by reference to their quoted bid prices in active markets. The fair value of Level 2 quoted bonds has been determined by reference to their quoted bid prices which are adjusted for indexation arising from the movement of the consumer prices index within the country of their incorporation.

c) Investment in Subsidiary

The Company's investment in its Subsidiary is categorised in Fair Value Level 2 as its fair value has been determined by reference to the Subsidiary's net asset value at the reporting date. The net asset value is predominantly made up of quoted equities traded on recognised stock exchanges and quoted bonds in Fair Value Levels 1 and 2.

d) Forward foreign currency contracts

The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

21. Subsequent events

Subsequent to the Balance Sheet date, the Company purchased a further 145,000 Ordinary shares to be held in treasury for a total cost of £103,000.

22. Alternative Performance Measures

The table below provides information relating to the underlying net asset values ("NAV") and share prices of the Company on the dividend reinvestment dates during the years ended 31 August 2016 and 31 August 2015.

2016				2015			
Date	Dividend Rate (pence)	NAV (pence)	Share Price (pence)	Date	Dividend Rate (pence)	NAV (pence)	Share Price (pence)
8 October 2015	1.25	54.33	48.75	1 October 2014	1.25	80.95	72.88
17 December 2015	0.875	51.41	46.00	18 December 2014	1.00	72.34	66.00
21 April 2016	0.875	61.85	54.00	2 April 2015	1.00	70.56	63.38
7 July 2016	0.875	71.90	62.25	16 July 2015	1.00	64.28	56.75

Corporate Information

The Company's Investment Manager is Aberdeen Asset Managers Limited, a subsidiary of Aberdeen Asset Management PLC whose group companies manage a combined £301 billion (as at 30 June 2016) in assets for a range of clients, including individuals and institutions, through mutual and segregated funds.

The image shows the exterior of a Walmart store. The word "Walmart" is written in large, white, three-dimensional letters on a tan-colored wall. To the right of the text is the Walmart logo, a yellow six-pointed starburst. Below the main sign, there are windows decorated with colorful, cartoonish murals of animals and flowers. In the foreground, many blue shopping carts are stacked in rows.

Wal-Mart

Shopping carts stand outside of a Wal-Mart store in Guadalajara, Mexico. Walmex is the Mexican subsidiary of Wal-Mart group. The company's shopping outlet brands include "Bodegas", offering basic general merchandise at the best prices and Walmart, offering "the widest assortment of goods at everyday prices".

Information about the Investment Manager

Aberdeen Asset Managers Limited

Worldwide, Aberdeen manages a combined £301 billion (as at 30 June 2016) in assets for a range of clients, including individuals and institutions, through mutual and segregated funds.

The Aberdeen Group has its headquarters in Aberdeen with principal offices in London, Singapore, Philadelphia, Bangkok, Edinburgh, Hong Kong, Luxembourg, Kuala Lumpur, Jersey, Sao Paulo, Stockholm, Sydney, Taipei, and Tokyo.

The Aberdeen Group manages 35 investment companies and other closed-ended funds representing some £15 billion under management. They adhere closely to the Group's investment style which is that of fundamental investors, with an emphasis on company visits and original research.

The Investment Team Senior Managers

MSc from Georgetown University. Joined Aberdeen in 2005 having previously worked for Deutsche Bank since joining them in 2000. Previously worked as an EM Debt portfolio manager with Invesco and as a Latin American economist with LGT Asset Management.

Viktor Szabo

Senior Investment Manager – Fixed Income, EMEA

MSc from the Corvinus University of Budapest. Joined Aberdeen in 2009 having previously worked for Credit Suisse and the National Bank of Hungary.

The Investment Process

Although Aberdeen is an active long-only manager, its investment philosophy and approach has absolute return characteristics. Its investment process is robust and characterised by its discipline, consistency and independence. Aberdeen is not benchmark-driven and, accordingly, its fund managers do not invest in stocks that fail to meet its investment criteria.

Portfolios are managed by Aberdeen on a team basis, with individual fund managers doing their own research and analysis. Each asset class has a model portfolio that contains the team's best ideas for that asset class and forms the basis for constructing individual portfolios focused on that asset class.

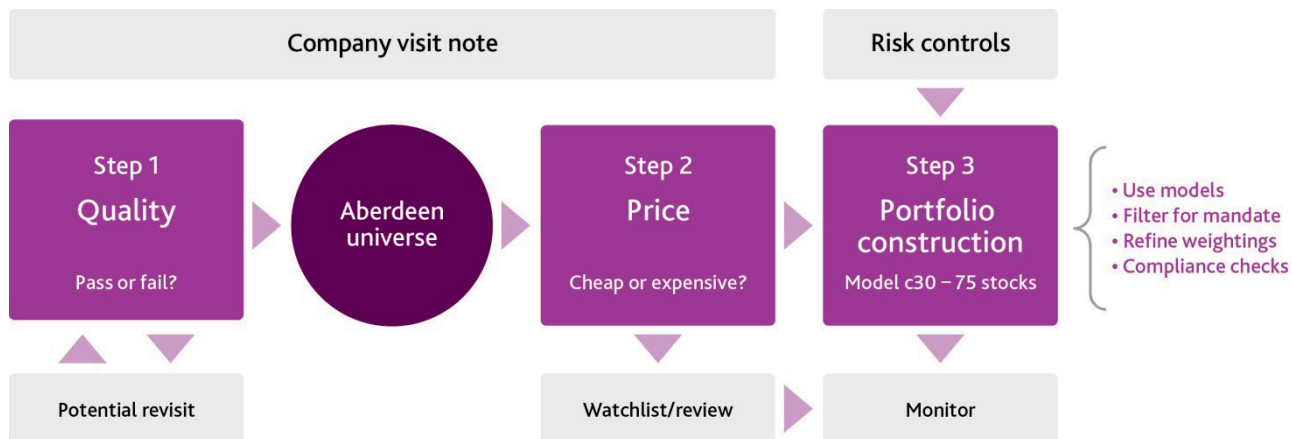

Aberdeen selects securities for the Company's portfolio employing the investment strategies established by Aberdeen's Global Emerging Market Equity and Global Emerging Market Debt teams. These teams, which comprise the investment team with responsibility for managing the Company's portfolio, have similar investment philosophies which focus on careful security selections, based on propriety

research and the application of a disciplined investment process.

Aberdeen regularly monitors and makes allocation decisions to determine the Company's portfolio weightings of, in particular, equity and equity-related investments and fixed income investments. Allocations between equity and equity-related investments and fixed income investments will vary according to the relative value and opportunities identified.

As markets change over time, the Company's flexibility allows Aberdeen to modify the Company's asset allocation in response to changing economic cycles. Whilst the Company's investment policy commits it to invest in the Latin American region, investment opportunities in the region are such that the geographic exposure of the Company's portfolio may be concentrated on a relatively small number of countries and/or securities from time to time.

Stock Selection Process

Direct

Investors can buy and sell Ordinary shares in the Company directly through a stockbroker or indirectly through a lawyer, accountant or other professional adviser. Many have online facilities. Alternatively, for Retail Clients, shares may be bought directly through Aberdeen's Investment Plan for Children, Investment Trust Share Plan and Investment Trust ISA.

Suitable for Retail/NMPI Status

The Company's securities are intended for investors primarily in the UK (including retail investors), professional-advised private clients and institutional investors who want to benefit from the growth prospects of Latin American companies by investment in an investment company and who understand and are willing to accept the risks of exposure to equities, bonds and foreign currencies. Investors should consider consulting a financial adviser who specialises in advising on the acquisition of shares and other securities before acquiring shares. Investors should be capable of evaluating the risks and merits of such an investment and should have sufficient resources to bear any loss that may result.

The Company currently conducts its affairs so that the shares issued by the Company can be recommended by a financial advisor to ordinary retail investors in accordance with the FCA's rules in relation to non-mainstream pooled investments (NMPs) and intends to continue to do so for the foreseeable future.

The Company's securities are excluded from the FCA's restrictions which apply to NMPs because the Company would qualify as an investment trust if the Company were based in the UK.

Aberdeen's Investment Plan for Children

Aberdeen runs an Investment Plan for Children (the "Children's Plan") which covers a number of investment companies under its management including Aberdeen Latin American Income Fund Limited. Anyone can invest in the Children's Plan, including parents, grandparents and family friends; subject to certain criteria being met, see terms and conditions within the Key Features document for details. All investments are free of dealing charges on the initial purchase of shares, although investors will suffer the bid-offer spread, which can, on some occasions, be a significant amount. Lump sum investments start at £150 per company, while regular savers may invest from £30 per month. Investors simply pay Government Stamp Duty (currently 0.5%) on purchases, where applicable. Selling costs are £10 + VAT. There is no restriction on how long an investor need invest in the Children's Plan, and regular savers can stop or

suspend participation by instructing AAM in writing at any time.

Aberdeen Investment Trust Share Plan

Aberdeen runs a Share Plan (the "Plan") through which shares in the Company can be purchased. There are no dealing charges on the initial purchase of shares, although investors will suffer the bid-offer spread, which can, on some occasions, be a significant amount. Lump sum investments start at £250, while regular savers may invest from £100 per month. Investors simply pay Government Stamp Duty (currently 0.5%) on purchases, where applicable. Selling costs are £10 + VAT. There is no restriction on how long an investor need invest in a Plan, and regular savers can stop or suspend participation by instructing the Manager in writing at any time.

Stocks and Shares Individual Savings Account ("ISA")

An investment of up to £15,240 can be made in the tax year 2016/17.

There are no brokerage or initial charges for the ISA, although investors will suffer the bid-offer spread, which can be a significant amount. Selling costs are £15 + VAT. The annual ISA administration charge is £24 + VAT calculated annually and applied on 31 March (or the last business day in March) and collected soon thereafter either by direct debit or, if there is no valid direct debit mandate in place, from the available cash in the Plan prior to the distribution or reinvestment of any income, or, where there is insufficient cash in the Plan, from the sale of investments held in the Plan. Under current legislation, investments in ISAs can grow free of capital gains tax.

Nominee Accounts and Voting Rights

In common with other schemes of this type, all investments in Aberdeen's Investment Trust Share Plan, Investment Plan for Children and Investment Trust ISA are held in nominee accounts and investors have full voting and other rights of share ownership.

ISA Transfer

Investors can choose to transfer previous tax year investments to us which can be invested in Aberdeen Latin American Income Fund Limited while retaining your ISA wrapper. The minimum lump sum for an ISA transfer is £1,000 and is subject to a minimum per investment company of £250.

Note

Please remember that past performance is not a guide to the future. Stock market and currency movements may cause

the value of shares and the income from them to fall as well as rise and investors may not get back the amount they originally invested.

As with all equity investments, the value of investment companies purchased will immediately be reduced by the difference between the buying and selling prices of the shares, the market maker's spread.

Investors should further bear in mind that the value of any tax relief will depend on the individual circumstances of the investor and that tax rates and reliefs, as well as the tax treatment of ISAs may be changed by future legislation.

Investor Warning: Be alert to share fraud and boiler room scams

Aberdeen has been contacted by investors informing that they have received telephone calls and emails from people who have offered to buy their investment company shares, purporting to work for Aberdeen Asset Management or for third party firms. Aberdeen has also been notified of emails claiming that certain investment companies under its management have issued claims in the courts against individuals. These may be scams which attempt to gain investors' personal information with which to commit identity fraud or could be 'boiler room' scams where a payment from them is required to release the supposed payment for their shares.

These callers/senders do not work for Aberdeen and any third party making such offers/claims has no link with Aberdeen. Aberdeen Asset Management does not 'cold-call' investors in this way. If you have any doubt over the veracity of a caller, do not offer any personal information, end the call and contact Aberdeen's investor services centre using the details on the 'Contact Us' page.

The Financial Conduct Authority provides advice with respect to share fraud and boiler room scams:
www.fca.org.uk/consumers/scams

The information above has been approved for the purposes of Section 21 of the Financial Services and Markets Act 2000 (as amended by the Financial Services Act) by Aberdeen Asset Managers Limited which is authorised and regulated by the Financial Conduct Authority.

Glossary of Terms and Definitions

Asset Cover	The value of a company's net assets available to repay a certain security. Asset cover is usually expressed as a multiple and calculated by dividing the net assets available by the amount required to repay the specific security.
Discount	The amount by which the market price per share of an investment company is lower than the NAV per share. The discount is normally expressed as a percentage of the NAV
Share Price Discount	The amount by which the market price per share of an investment company is lower than the NAV per share. The discount is normally expressed as a percentage of the NAV share.
Dividend Cover	Earnings per share divided by dividends per share expressed as a ratio.
Dividend Yield	The annual dividend expressed as a percentage of the share price.
Net Asset Value (NAV)	The value of total assets less liabilities. Liabilities for this purpose includes current and long-term liabilities. The net assets divided by the number of shares in issue produces the NAV per share.
Net Gearing	Net gearing is calculated by dividing total assets (as defined below) less cash or cash equivalents by Shareholders' funds expressed as a percentage.
Ongoing Charges	Ratio of expenses as percentage of average daily Shareholders' funds calculated as per the industry standard method.
Ordinary Shares	<p>The Ordinary shares give Ordinary Shareholders the entitlement to all of the capital growth in the Company's assets and to all the income from the Company that is resolved to be distributed. The Ordinary shares are in registered form and traded on the London Stock Exchange's Main Market.</p> <p>Subject to the Articles of Association, which include the provisions of Chapter 5 of the United Kingdom Listing Authority's Disclosure and Transparency Rules relating to the requirement of persons to disclose their interests in shares, on a show of hands every registered holder of Ordinary shares (a Shareholder) who is present in person (or, being a corporation, by representative) shall have one vote. On a poll every Shareholder present in person (or, being a corporation, by representative) or by proxy shall be entitled to one vote in respect of each Ordinary share held by him. In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority shall be determined by the order in which the names stand in the register of members in respect of the shares.</p>
Share Price Premium	The amount by which the market price per share of an investment company exceeds the NAV per share. The premium is normally expressed as a percentage of the NAV per share.
Price/Earnings Ratio	The ratio is calculated by dividing the middle-market price per share by the earnings per share. The calculation assumes no change in earnings but in practice the multiple reflects the stock market's view of a company's prospects and profit growth potential.
Prior Charges	The name given to all borrowings including debentures, loan and short-term loans and overdrafts that are to be used for investment purposes, reciprocal foreign currency loans, currency facilities to the extent that they are drawn down, index-linked securities, and all types of preference or preferred capital and the income shares of split capital trusts, irrespective of the time until repayment.
Total Assets	Total assets less current liabilities (before deducting prior charges as defined above).
Total Return	Total return involves reinvesting the net dividend in the month that the share price goes up. The NAV Total Return involves investing the same net dividend in the NAV of the Company on the date to which that dividend was earned, e.g. quarter end, half year or year end date.

Your Company's Share Capital History

Share Capital at 31 August 2016

Alternative Investment Fund Managers Directive Disclosures (Unaudited)

Aberdeen and the Company are required to make certain disclosures available to investors in accordance with the Alternative Investment Fund Managers Directive ('AIFMD'). Those disclosures that are required to be made pre-investment are included within a pre-investment disclosure document ('PIDD') which can be found on the Company's website latamincome.co.uk. There have been no material changes to the disclosures contained within the PIDD since first publication in July 2014.

The periodic disclosures as required under the AIFMD to investors are made below:

- Information on the investment strategy, geographic and sector investment focus and principal stock exposures are included in the Strategic Report.
- None of the Company's assets are subject to special arrangements arising from their illiquid nature.
- The Strategic Report, note 16 to the Financial Statements and the PIDD together set out the risk profile and risk management systems in place. There have been no changes to the risk management systems in place in the period under review and no breaches of any of the risk limits set, with no breach expected.
- There are no new arrangements for managing the liquidity of the Company or any material changes to the liquidity management systems and procedures employed by APWML.
- In accordance with the requirements of the AIFMD, the Manager's remuneration policy is available from the Company Secretaries, Aberdeen Private Wealth Management Limited on request (see contact details on page 79) and the remuneration disclosures in respect of the APWML reporting period for the year ended 30 September 2015 are available on the Company's website.

The above information entitled 'Alternative Investment Fund Managers Directive Disclosure (unaudited)' has been approved for the purposes of Section 21 of the Financial Services and Markets Act 2000 (as amended by the Financial Services Act 2012) by Aberdeen Fund Managers Limited which is authorised and regulated by the Financial Conduct Authority.

Notice of Annual General Meeting

Notice is hereby given that the sixth Annual General Meeting of Aberdeen Latin American Income Fund Limited will be held at 1st Floor, Sir Walter Raleigh House, 48 – 50 Esplanade, St Helier, Jersey JE2 3QB, at 10.00 a.m. on 8 December 2016 for the following purposes:

To consider and, if thought fit, pass the following resolutions which will be proposed as ordinary resolutions:

Ordinary Business

1. To receive the Directors' Report and financial statements for the year ended 31 August 2016, together with the auditor's report thereon.
2. To receive and adopt the Directors' Remuneration Report (other than the Directors' Remuneration Policy).
3. To re-elect Mr Gilbert as a Director.
4. To re-elect Mr Prosser as a Director.
5. To re-appoint Ernst & Young LLP as independent auditor and to authorise the Directors to agree their remuneration.

Special Business

As special business, to consider the following resolutions, each of which will be proposed as a special resolution:

6. THAT, the Company be and is hereby generally and unconditionally authorised in accordance with the Articles of Association to make market purchases on a stock exchange of, and to cancel or hold in treasury, Ordinary shares of no par value in the capital of the Company ("Ordinary shares"), provided that:
 - a) the maximum number of Ordinary shares hereby authorised to be purchased is 14.99 per cent. of the issued share capital of the Company as at the date of the passing of this Resolution;
 - b) the maximum price which may be paid for an Ordinary share shall not be more than the higher of (i) an amount equal to 105 per cent. of the average of the middle market quotations for an Ordinary share taken from the Official List for the 5 business days immediately preceding the day on which the Ordinary share is purchased; and (ii) the higher of the last independent trade and the current highest independent bid on the trading venue where the purchase is carried out;
 - c) the minimum price which may be paid for an Ordinary share is 1 pence; and
 - d) the authority hereby conferred shall expire at the conclusion of the Annual General Meeting of the Company in 2017 or, if earlier, on the expiry of 18 months from the passing of this resolution, unless such authority is renewed prior to such time.
7. THAT, for the purposes of Article 7.2 of the Company's Articles of Association the Company may issue equity securities (as defined in that Article) up to a maximum amount of 6,400,782 shares representing 10% of the total number of Ordinary shares in issue as at the date of this resolution, provided that such disapplication shall expire (unless and to the extent previously revoked, varied or renewed by the Company in general meeting (by Special Resolution) at the earlier of the conclusion of the Annual General Meeting of the Company to be held in 2017 or eighteen months from the date of this resolution but so that this power shall enable the Company to make offers or agreements before such expiry which would or might require equity securities to be issued after such expiry and the Directors of the Company may issue equity securities in pursuance of any such offer or agreement as if such expiry had not occurred.

48 – 50 Esplanade,
St Helier,
Jersey JE2 3QB

Notice of Annual General Meeting continued

Notes:

1. A member entitled to attend and vote is entitled to appoint a proxy or proxies to attend and, on a poll, to vote instead of him. A proxy need not be a member of the Company. A form of proxy is enclosed.
2. Instruments of proxy and the power of attorney or other authority, if any, under which they are signed or a notarially certified copy of that power of attorney or authority should be sent to The Registrars, Aberdeen Latin American Income Fund Limited, Computershare Investor Services (Jersey) Limited, The Pavillions, Bridgewater Road, Bristol BS13 8AE so as to arrive not less than forty eight hours before the time fixed for the meeting.
3. In accordance with Article 40 of the Companies (Uncertificated Securities) (Jersey) Order 1999, to have the right to attend and vote at the meeting referred to above a member must first have his or her name entered in the Company's register of members by not later than forty eight hours before the time fixed for the meeting (or, in the event that the meeting be adjourned, on the register of members forty eight hours before the time of the adjourned meeting). Changes to entries on that register after that time (or, in the event that the meeting is adjourned, on the register of members less than forty eight hours before the time of any adjourned meeting) shall be disregarded in determining the rights of any member to attend and vote at the meeting referred to above.
4. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company specifies that only those Ordinary Shareholders entered on the register of members of the Company as at 10.00 a.m. on 6 December 2016 or, in the event that the meeting is adjourned, on the register of members 48 hours before the time of any adjourned meeting, shall be entitled to attend and vote at the meeting in respect of the number of ordinary shares registered in their name at that time. Changes to the entries on the register of members after 10.00 a.m. on 6 December 2016 or, in the event that the meeting is adjourned, in the register of members 48 hours before the time of any adjourned meeting, shall be disregarded in determining the rights of any person to attend or vote at the meeting, notwithstanding any provisions in any enactment, the Articles of Association of the Company or other instrument to the contrary.
5. No Director has a service contract with the Company.
6. The Register of Directors' interests is kept by the Company and available for inspection.
7. As at 18 October 2016 (being the last business day prior to the publication of this notice) the Company's issued share capital comprised 64,007,824 Ordinary shares of no par value (with a further 2,565,000 shares held in treasury). Each Ordinary share carries the right to one vote at a general meeting of the Company. Therefore, the total number of voting rights in the Company as at 18 October 2016 was 64,007,824.
8. There are special arrangements for holders of shares through the Aberdeen Share Plan and Investment Trust ISA. These are explained in the 'Letter of Direction' which such holders will have received with this report.
