Interim Board Report

US equities made little progress in the six months ended 31 July 2011 and the S&P500 Index traded in a relatively narrow range. While the corporate sector remained in good health with profits generally exceeding forecasts, investors were unsettled by a number of factors and towards the end of the period were becoming increasingly risk averse. Regime changes in Tunisia and Egypt had little impact on equity markets but as protests gained momentum in Libya and other Arab countries investors became concerned about the risk to oil supplies and the impact of higher oil prices on economic growth. The earthquake in Japan and the following tsunami added to the uncertainty which was exacerbated as sovereign debt issues in the eurozone once more came to the fore. Towards the end of the period, the on-going quarrelling of politicians in Washington over the government debt ceiling created more nervousness which was reflected in the yields on 10 year Treasury bonds falling towards 2%.

In the six months ended 31 July 2011, the net asset value per share (excluding undistributed revenue for the period) fell by 1.8% to 656.15p (NAV) while the Index fell by 2.0% (in sterling terms).

The Company's share price fell by 2.3% over the six month period to 31 July 2011 to 621.00p, representing a discount of 5.4% to the NAV. At 31 January 2011, the shares were trading at a discount to NAV of 4.9%. In the six months ended 31 July 2011, 740,000 shares were bought back for cancellation at a cost of £4.8 million.

The revenue return per share has risen by 0.9% from 4.39p to 4.43p. The Directors have declared an interim dividend of 4.20p per share (2011: 4.20p) for the year to 31 January 2012 payable on 14 October 2011 to shareholders on the register on 16 September 2011.

The level of transactions within the portfolio during the period resulted from changes to the constituents of the Index, which arose mainly from takeover activity, and the need to raise cash from the portfolio to fund share buybacks. The new holdings included Covidien, Joy Global, Edwards Life Sciences, BlackRock, Alpha Natural Resources

and Accenture. The total value of purchases amounted to £3.3 million while sales totalled £8.9 million.

Since the end of July there have been sharp falls in global equity markets. Weak economic data from the US and Europe, Standard & Poor's downgrading its credit rating of the USA, renewed concerns over the balance sheets of Western banks and disappointing profits from a number of European companies combined to push equity prices sharply lower. From the end of July to the date of this report (6 September 2011), the net asset value per share of the Company and the index have both fallen by 7.4%.

Recent US economic data have been weaker than expected, although corporate profits and dividends so far in 2011 have been stronger than anticipated. Equity valuations remain below historical averages and, if the economic outlook improves for the balance of this year and into 2012, we would expect valuations to return to historical norms.

Events during the period

At the Company's AGM on 25 May 2011, all resolutions were passed. A final dividend of 4.95p was paid to shareholders on 27 May 2011.

Risks and Uncertainties

The Board has identified a number of key risks that affect its business. The principal risks are as follows:

- Performance risk – the performance of the portfolio relative to the benchmark (S&P 500 Composite Index) is monitored closely by the Board. The NAV performance relative to the Index and the underlying stock weightings in the portfolio against the Index weightings are monitored closely to eliminate any risk of a significant tracking error developing.
- Market risk – the Company's objective is to track the S&P 500 Composite Index, and the valuation of its portfolio will reflect movements in this Index and in the sterling/dollar exchange rate. Additionally, the Company's revenue will reflect the dividends generated

by the constituents of the Index when translated into sterling.

- Discount volatility – the Company's shares can trade at a discount to its underlying net asset value. The Company operates a discount management policy in the form of an active share buyback programme. The timing of any purchases is decided by the Board, in consultation with management, and is at its discretion.
- Regulatory risk – the Company operates in a complex regulatory environment and faces a number of regulatory risks. Breaches of regulations, such as Sections 1158 of the Corporation Tax Act 2010, the UK Listing Rules and the Companies Act, could lead to a number of detrimental outcomes and reputational damage. The Audit Committee monitors the Company's compliance with regulations.

Directors' Responsibility Statement

The Directors are responsible for preparing the half yearly financial report in accordance with applicable law and regulations. The Directors confirm that to the best of their knowledge:

- the condensed set of financial statements within the half-yearly financial report has been prepared in accordance with the Accounting Standards Board's Statement "Half Yearly Financial Reports";
- the Interim Management Report includes a fair review of the information required by rules 4.2.7R and 4.2.8R of the FSA's Disclosure and Transparency Rules.

Notes to the Accounts

1. Accounting policies

(a) Basis of accounting

The accounts have been prepared in accordance with applicable UK Accounting Standards, with pronouncements on half yearly reporting issued by the Accounting Standards Board and with the Statement of Recommended Practice 'Financial Statements of Investment Trust Companies and Venture Capital Trusts' issued in January 2009. They have also been prepared on the assumption that approval as an investment trust will continue to be granted. The financial statements have been prepared on a going concern basis.

The financial statements and the net asset value per share figures have been prepared in accordance with UK Generally Accepted Accounting Practice (UK GAAP).

The half yearly financial statements have been prepared using the same accounting policies applied for the year ended 31 January 2011.

(b) Dividends payable

Interim and final dividends are recognised in the period in which they are paid.

12. Half-Yearly Financial Report

The financial information contained in this Half-Yearly Financial Report does not constitute statutory accounts as defined in Sections 434 – 436 of the Companies Act 2006. The financial information for the six months ended 31 July 2011 and 31 July 2010 has not been audited.

The information for the year ended 31 January 2011 has been extracted from the latest published audited financial statements which have been filed with the Registrar of Companies. The report of the auditors on those accounts contained no qualification or statement under Section 498 (2),(3) or (4) of the Companies Act 2006.

13. This Half-Yearly Financial Report was approved by the Board on 6 September 2011.

How to Invest in Edinburgh US Tracker Trust plc

Direct

Investors can buy and sell shares in Edinburgh US Tracker Trust plc directly through a stockbroker or indirectly through a lawyer, accountant or other professional adviser. Alternatively shares can be bought directly through Aberdeen's Investment Plan for Children, Aberdeen's Investment Trust Share Plan, Investment Trust ISA or ISA Transfer.

Aberdeen's Investment Plan for Children

Aberdeen Asset Managers (AAM) runs an Investment Plan for Children (the "Children's Plan") which covers a number of investment companies under its management including Edinburgh US Tracker Trust plc. Anyone can invest in the Children's Plan, including parents, grandparents and family friends. AAM runs a Share Plan (the "Plan") through which shares in Edinburgh US Tracker Trust plc can be purchased. There are no dealing charges on the initial purchase of shares, although investors will suffer the bid-offer spread, which can, on some occasions, be a significant amount. Lump sum investments start at £250, while regular savers may invest from £100 per month. Investors simply pay Government Stamp Duty (currently 0.5%) on entry. Selling costs are £10 + VAT. There is no restriction on how long an investor need invest in a Plan, and regular savers can stop or suspend participation by instructing AAM in writing at any time. In common with other schemes of this type, all investments are held in nominee accounts. Investors have full voting and other rights of share ownership.

Stocks and Shares ISA

An investment of up to £10,680 in Edinburgh US Tracker Trust plc can be made in the tax year 2011/2012.

There are no brokerage or initial charges for the ISA, although investors will suffer the bid-offer spread, which can be a significant amount. Investors only pay Government Stamp Duty (currently 0.5%) on purchases. Selling costs are £15+ VAT. The annual ISA management charge is £24+ VAT, calculated six monthly and deducted from income. Under

current legislation, investments in ISAs can grow free of capital gains tax.

Note

Please remember that past performance is not a guide to the future. Stock market and currency movements may cause the value of shares and the income from them to fall as well as rise and investors may not get back the amount they originally invested.

As with all equity investments, the value of investment trusts purchased will immediately be reduced by the difference between the buying and selling prices of the shares, the market maker's spread.

Investors should further bear in mind that the value of any tax relief will depend on the individual circumstances of the investor and that tax rates and reliefs, as well as the tax treatment of ISAs, may be changed by future legislation.
