The attachment to this e-mail contains data (“Data”) which has been prepared for you by us to enable you to comply with your PRIIPS, MiFID II and Defined Contribution Workplace Pensions Scheme (“Regulatory”) regulatory reporting obligations. The Data must not be circulated or distributed to any third party individual or legal entity without our prior written consent. The Data was sourced from both proprietary and non-proprietary sources which we may not have verified or audited independently and as such you use the Data at your own risk. We therefore do not guarantee the accuracy of the Data or its applicability for your Regulatory obligations. The Data contains information available to us on the date identified on the attachment.

This e-mail, and the attachment, do not provide you with any advice on how to interpret the Data. Further, we do not hold out, represent or warrant that the Data has been created, calculated or made available in compliance with the Regulations. How you interpret the Data for your purposes is wholly and exclusively your responsibility and as such you may wish to consider taking such professional advice as you may deem necessary (“Professional Advice”). Neither we nor any Standard Life Aberdeen group is liable for any fees or costs relating to any Professional Advice you receive pursuant to this e-mail and the Data. This e-mail and the Data do not constitute Professional Advice.

This document is strictly for information purposes and should not be considered as an offer, investment recommendation or solicitation to deal in any of the investments mentioned herein and does not constitute investment research.

Notwithstanding any other provision in this e-mail we retain the right to amend the Data without notice and as we consider necessary from time to time and if we deem it necessary to cease providing you with the Data at any time and without notification.

Excluding any liability arising through fraud, or any other liability applicable through law or regulation neither we nor any Standard Life Aberdeen group company have any liability to you, or any other third party, whatsoever, however, arising in relation to this e-mail or the Data.

Finally, we would also like to draw your attention to the following points. The Data provided does not include any reference to, or consideration of, any form of stamp duty or similar and applicable sale tax which may be payable by the investor in respect of their purchase of the investment to which the Data relates. The values populated for EMT field "07020_One-off_cost_Financial_Instrument_entry_cost" and EPT field "03010_One-off_cost_Portfolio_entry_cost" reflect the actual initial/preliminary charges applied by the ACD in practice - maximum charges may be found detailed in the relevant fund offering document (e.g. the Fund's Prospectus and for UCITS, the fund's UCITS KIID). The transaction cost methodology for products which make available a UCITS Key Investor Information Document ("KIID") or Non-UCITS Retail Scheme ("NURS") Key Investor Information are based on the 'new PRIIPs' methodology outlined in the PRIIPs Regulatory Technical Standards Annexes (Annex VI 21), but using actual turnover rather than estimated turnover. This approach involves using a standardised spread figure per asset class. Products which make available a PRIIPs Key Information Document ("KID") calculate transaction costs using the arrival price methodology defined within Annex VI 12-20.
