

31 March 2021

The fund aims to provide long term growth from a combination of income and capital growth by investing predominantly in prime quality UK properties. Typically the fund will invest in a mix of freehold and leasehold properties selected from across the retail, office, industrial and other sectors. The fund may also invest in European properties and in property development opportunities. As well as direct investments, the fund may also invest indirectly in property through investment vehicles such as quoted and unquoted property companies or collective investment schemes.

Selling property can be a lengthy process so investors in the fund should be aware that they may not be able to sell their investment when they want to.

The value of investments within the fund can fall as well as rise and is not guaranteed - you may get back less than you pay in. The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate. The sterling value of overseas assets held in the fund may rise and fall as a result of exchange rate fluctuations.

Pooled Pension Investment Fund

Property Fund

Quarterly

Fund Manager	David A Stewart
Fund Manager Start	1 Apr 2011
Launch Date	1 Nov 1984
Current Fund Size*	£2528.7m

Note: The information shown relates to the past. Past performance is not a guide to the future. The value of your investment can go down as well as up. Performance figures are quoted on a net basis over the stated period. They do not allow for any charges which may be deducted.

The stated performance is calculated on the basis of close of business in the underlying markets to allow comparison on a consistent basis. This performance is indicative only, and should not be relied on for the purposes of valuation. The actual unit price used for dealing and valuation purposes is based on our normal valuation point, i.e. typically 2pm.

Definitions

The Average Lease Length is the weighted average (by estimated rental value, "ERV") of all contracted income within the fund. ERV refers to the rent that a particular asset would be expected to achieve if it were to be re-let in current market conditions.

Fund Yield - this represents the income generated by the assets in which the fund has been invested over the last twelve months, expressed as a % of the fund's value. Please note that this income stream may be subject to taxes and charges.

Cash and Other - may include bank and building society deposits, other money market instruments such as Certificates of Deposits (CDs), Floating Rate Notes (FRNs) including Asset Backed Securities (ABSs), Money Market Funds and allowances for tax, dividends and interest due if appropriate.

Other Commercial - Can include hotels, car showrooms, car parks and leisure sector units.

Queue for withdrawals now cleared - on 26 January 2009 we introduced a queueing system for clients wishing to take money out of our Pooled Property Fund with such requests subject to a deferral period of up to twelve months. This queueing system was introduced to manage requests to withdraw money from the fund in the difficult market conditions where selling property at a reasonable price became more difficult to achieve. The queueing process was designed to help us control the process of selling properties and achieve a better price for our clients. More recently, conditions in the commercial property market have improved with signs of confidence beginning to return to the market. Effectively managing cash flows into the Pooled Property Fund - as investor interest in commercial property has resumed we are carefully managing inflows into the Pooled Property Fund via a waiting list. The fund is not closed to new business. We are continuing to advise potential clients that new allocations may take 6 months to gain access to the fund, although in practice it may be quicker, or slower than this. We remain confident of our ability to source and acquire good quality stock at sensible pricing using the waiting list, as evidenced by the recent deal flow.
