

Investor Guide

MyFolio Monthly Income Funds

The MyFolio Monthly Income Funds aim to help you achieve your long-term investment goals with confidence. To do this, each fund includes a variety of different investments. All you need to do is select the right option for you with your adviser.

Why should I invest in the MyFolio Monthly Income Funds?

We designed the MyFolio Monthly Income Funds to make investing quick and easy. You simply decide how much risk you are comfortable taking and select the appropriate fund. We then do the rest to manage it in line with your chosen level of risk.

Our experts will:

Decide what to invest in and when

Aim to produce a high and sustainable level of income

Actively manage the fund to try and produce the best possible return

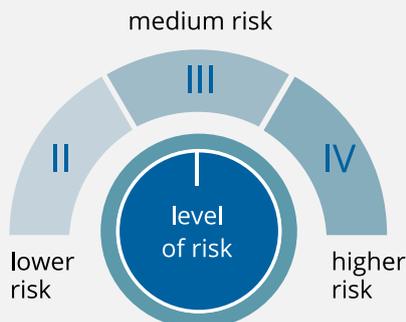

Regularly check the fund is still in line with your chosen risk level

You can be assured that your investment is being managed by experts to help support your long-term investment goals. We do recommend that you regularly review your chosen fund to make sure it is still right for you and your appetite for risk hasn't changed. As with any investment, the value of the funds you are invested in can go up and down, and may be worth less than you paid in.

Which MyFolio Monthly Income Fund is right for me?

Deciding which fund is right for you is very straightforward. Simply decide how much risk you are willing to take.

There are three risk levels for you to choose from.

We recommend talking to your financial adviser to decide which risk level is right for you.

What does MyFolio Monthly Income invest in?

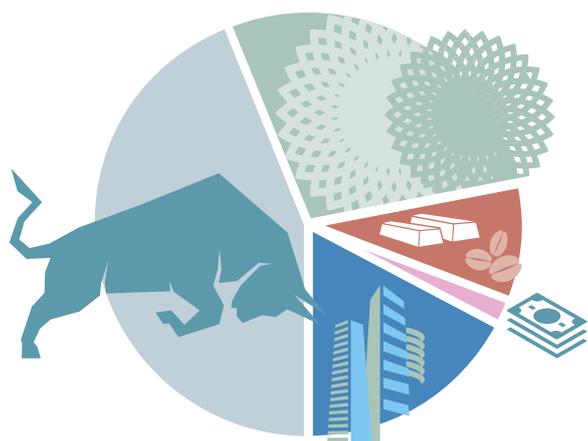

Our experts invest in what we believe to be some of the best funds available from leading managers across the globe, with a particular focus on income generation. MyFolio uses a combination of defensive and growth assets. Defensive assets are usually seen as less risky, including funds that typically hold investments such as cash and bonds. Meanwhile, growth assets are usually seen as more risky, including funds that typically hold investments such as company shares and property. By combining different types of investment, we believe we can achieve a high and sustainable level of income and overall return for each risk level.

Defensive

Growth

As you move up the risk levels, you would typically expect to see a higher proportion of the portfolio invested in growth assets and less in defensive assets.

Defensive assets

Growth assets

Who runs the MyFolio Monthly Income Funds?

The MyFolio Monthly Income Funds are co-managed by Rob Bowie and Mark Lane, who are experienced fund managers.

Aberdeen Standard Investments is a leading global asset manager, managing assets worth a total of £464.7 billion (as at 31 December 2020).

Important Information

Past performance is not a guide to future performance. All investments carry some degree of risk with the aim of growing the value of your money. The value of investments can fall as well as rise and may be worth less than you originally invested. Please refer to the Key Investor Information Document or the Prospectus for more details of the risks applicable to each fund in the MyFolio range, or ask your adviser. The MyFolio funds are not managed to a particular benchmark. Aberdeen Standard Investments has not considered the suitability of investment against your individual needs and risk tolerance.
