Important risk disclosure
Aberdeen Standard Investments is a brand of the investment businesses of Standard Life Aberdeen plc, its affiliates and subsidiaries.

Past performance does not guarantee future results. The Fund’s use of leverage exposes the Fund to additional risks, including the risk that the costs of leverage could exceed the income earned by the Fund on the proceeds of such leverage. Additionally, in the event of a general market decline in the value of the Fund’s assets, the effect of that decline will be magnified in the Fund because of the additional assets purchased with the proceeds of the leverage.

Investment Grade Developing Markets are those countries whose sovereign debt is rated not less than Baa3 by Moody’s Investors Services Inc. (“Moody’s”) or BBB- by Standard & Poor’s (“S&P”) or comparably rated by another appropriate nationally or internationally recognized ratings agency.

Developed Markets are those countries contained in the Citigroup World Government Bond Index, New Zealand, Luxembourg and the Hong Kong Special Administrative Region.

Investment Grade Developing Markets are those countries that are not Developed Markets or Sub-Investment Grade Developing Markets.
