

# Aberdeen Standard Capital (Offshore) Bridge Fund

## Quarterly Performance Data and Analytics to 30 June 2021

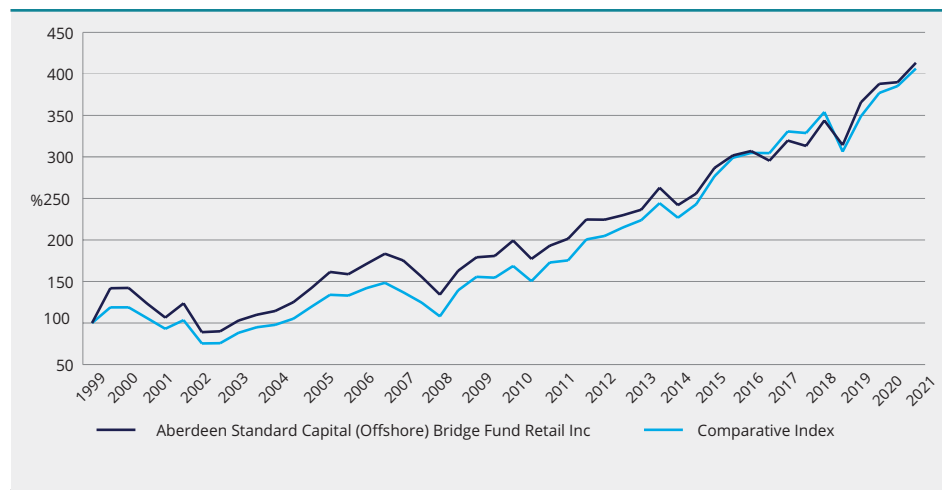

### Fund Description

The objective of the fund is to achieve capital growth together with an element of income through investment primarily in international equities and fixed interest securities. Although this fund will normally be invested in securities, the Investment Manager may elect to hold cash or near cash from time to time. There will be no limits on the proportion of the class fund invested in bonds or equities or in any one geographic region.

The value of investments within the fund can fall as well as rise and is not guaranteed - you may get back less than you pay in. The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate. The sterling value of overseas assets held in the fund may rise and fall as a result of exchange rate fluctuations.

### Performance\*

The performance of the fund\*\* has been calculated using bid to bid basis, based on an Annual Management Charge (AMC) of 1.00%, gross income re-invested and excludes initial charges. The Comparative Index performance is on a Total Return basis.
