

Standard Life Deposit and Treasury Pension Fund

31 March 2021

The primary aim of the fund is to maintain capital and provide returns before charges in line with short term money market rates by investing in deposits and short term money market instruments.

The fund price is not guaranteed by Standard Life and there could be circumstances where the fund price may fall. A fall might happen if, for example, there is a default by one of the banks where some of the money is held or where there is an adverse market movement in the value of some of the money market instruments held. A fall may also happen if fund income falls so low as to be less than the charges applied to the fund.

The value of any investment can fall as well as rise and is not guaranteed - you may get back less than you pay in.

Pooled Pension Investment Fund

Note: The information shown relates to the past. Past performance is not a guide to the future. The value of any investment can fall as well as rise and is not guaranteed - you may get back less than you pay in. For the relevant charges on your policy please refer to your policy documentation. Performance figures are quoted on a gross basis over the stated period. They do not allow for any charges which may be deducted.

Definitions

Running Yield - indicates the anticipated income from the assets in which the fund invests, expressed as a percentage of the current market value of those assets. Please note that this is not the same as the income that is distributed to investors because, for example, charges for running the fund will be deducted from this.
